STATE OF KANSAS AID FOR K-12 EDUCATION

This memorandum summarizes aid categories and amounts for K-12 education for fiscal year (FY) 2018, FY 2019, and FY 2020. School districts receive a variety of types of aid from the State, including State Foundation Aid, Supplemental State Aid, Special Education State Aid, and several other aid programs. In addition, the Kansas State Department of Education (KSDE) provides aid through the Kansas Children’s Cabinet, which provides grants to school districts and other local education agencies for programs in early childhood education and development. These sources of aid are all funded by state-controlled funds, such as the State General Fund (SGF), the Children’s Initiatives Fund (CIF), and the statewide 20-mill property tax levy.

KSDE also distributes federal funding to school districts and other local education agencies for special education, school food assistance, and Elementary and Secondary Education Act programs such as Title I funding. These federal fund amounts do not include any moneys that are provided directly to school districts by the federal government.

The following table shows total state aid and federal aid to school districts for FY 2018, FY 2019, and FY 2020. Brief descriptions of major categories of state aid can be found on the following page. For greater detail on aid to school districts, please see Attachment A.

Note: Totals may not add due to rounding.

Descriptions of Aid Programs

Attachment A lists all state and federal aid provided to school districts (aid to local units of government) and nongovernmental education agencies or individuals (other assistance). Federal aid is defined to include only those funds that flow through KSDE and to exclude funds that are provided directly to school districts or funds that flow through other state agencies. The table includes the following line items:

- **State Aid**, the total amount of aid to local units of government and other assistance provided by the State of Kansas using state moneys, such as SGF, CIF, the 20-mill property tax levy, and other state-controlled funds. In this table, the total is the sum of the subtotals for K-12 State Aid and Kansas Children's Cabinet aid;
- **K-12 State Aid**, the subtotal amount of state aid to local units of government and other assistance that goes directly into the K-12 education system. This includes the following:
 - **State Foundation Aid (SFA)**, state aid to school districts as determined by the Base Aid for Student Excellence and the weighted enrollment of the school district. SFA comprises:
 - SGF appropriations;
 - The statewide 20-mill property tax levy;
 - The School District Finance Fund (SDFF), which is funded by optional local property taxes;
 - The Mineral Production Fund (MPF); and
 - A transfer from the State Highway Fund (FY 2018 and FY 2019 only);
 - **Supplemental State Aid**, state equalization aid to school districts for Local Option Budgets (LOB). The LOB is equalized to the 81.2 percentile of assessed valuation per pupil (AVPP);
 - **Special Education State Aid**, state aid for costs associated with special education;
 - **Capital Outlay State Aid**, state equalization aid for local capital outlay property tax levies. School districts are ranked from highest to lowest in AVPP. The school district at the median of AVPP receives 25.0 percent state aid. State aid decreases by 1.0 percent for each \$1,000 in AVPP above the median and state aid increases by 1.0 percent for each \$1,000 in AVPP below the median. Capital Outlay State Aid is a demand transfer from the SGF and is considered a SGF expenditure;
 - **Capital Improvement State Aid (Bond and Interest State Aid)**, state equalization aid for payments on general obligation bonds incurred by school districts for capital projects, such as the construction of a new school building. Capital Improvement State Aid is a special revenue fund expenditure funded by a revenue transfer from the SGF. Therefore, it is not a SGF expenditure, but it is a SGF obligation;

- **Kansas Public Employees Retirement System (KPERs) Employer Contributions**, employer contributions to KPERs paid directly by the State. These include contributions for public school employees, including teachers, and employees of community colleges, technical colleges, and interlocals; and
- **Various Smaller Aid Programs**, these include parent education, the Mental Health Intervention Team pilot program, professional development for teachers, the Mentor Teacher program, Driver Education Program Aid, and other forms of state aid to school districts;
- **Kansas Children’s Cabinet**, the subtotal amount of state aid to local units of government and other assistance provided by the Kansas Children’s Cabinet; and
- **Federal Aid**, the total amount of federal aid distributed to school districts through KSDE, including special education, school food assistance, and a variety of other grants.
