FOREWORD

Kansas Fiscal Facts includes information on the Kansas state budget. It is intended to inform legislators and others, particularly those without budget experience, by providing basic budgetary facts.

Information contained in this document reflects expenditures approved by the 2020 Legislature for state fiscal year 2021 (July 1, 2020 - June 30, 2021). Comparison information to prior years is also included.

FY 2020 data reflect estimates as approved by the Legislature and will differ from actual expenditures.

Information contained in the Overview section and in the Budget Detail by Function of Government section reflects amounts approved by the 2020 Legislature.

The opening section of the document provides an overview of the state budget, including descriptive information on the approved budget, trends data, state personnel, and state revenues.

Following the overview, detailed information is provided for each of the six functions of government, including approved levels of expenditures and staffing for each state agency. Budget highlights from the 2020 Session are included for each function of government, as is other descriptive information.

A glossary of selected budget terms is included at the end of this document. A list of legislative fiscal analyst assignments is also included, should there be a need for additional information regarding a particular agency budget.

The reader is encouraged to keep this document as a handy reference tool. Suggestions for improvements are always welcome.

BUDGET OVERVIEW

The 2020 Legislature approved expenditures of \$18.7 billion in FY 2020 from all funding sources. This is an increase of \$1.8 billion, or 10.4 percent, above FY 2019 actual expenditures. The FY 2020 budget includes State General Fund expenditures of \$7.8 billion, which is an increase of \$798.3 million, or 11.4 percent, above FY 2019 actual expenditures.

The FY 2021 approved budget totals \$19.9 billion from all funding sources. This is an increase of \$1.2 billion, or 6.6 percent, above the FY 2020 approved budget. The FY 2021 budget includes State General Fund expenditures of \$8.0 billion, which is an increase of \$192.9 million, or 2.5 percent, above the FY 2020 approved budget.

The approved budget includes the following adjustments:

- Added \$50.0 million, all from the State General Fund, for the coronavirus pandemic (COVID-19) response in FY 2020, to be released by the Legislative Coordinating Council following submission by the Director of the Budget and review by the joint Legislative Budget Committee.
- Added \$15.0 million, all from the State General Fund, to the Kansas Division of Emergency Management for the COVID-19 response in FY 2020.
- Added \$14.9 million, all from the State General Fund, for information technology modernization projects in FY 2020.
- Added \$6.1 million, all from the State General Fund, to expand the Lansing and Winfield correctional facilities to provide substance abuse treatment and nursing care in FY 2020.
- Added \$4.5 million, all from the State General Fund, for the Excel in Career Technical Education Program in FY 2020.
- Deleted \$42.3 million from the Evidence-based Juvenile Programs Fund account in the Department of Corrections in FY 2020. [Note: The Department of Corrections retains \$45.0 million in expenditure authority from the Evidence-based Juvenile Programs Fund in FY 2021 that the Governor has recommended the Department not exercise.]
- Deleted \$10.7 million, all from the State General Fund, for Medicaid non-caseload home and community based services waiver expenditures and \$15.3 million, all from the State

General Fund, for human services consensus caseload estimates in FY 2020.

- Deleted \$40.5 million from all funds, including \$32.9 million from the State General Fund, for school finance consensus estimates in FY 2020.
- Deleted \$16.2 million, all from the State General Fund, in the Department of Corrections for inmate outsourcing and unexpended funds appropriated to the State Finance Council in FY 2020.
- Added \$135.8 million, including \$118.7 million from the State General Fund, for the State's new estimates of expenditures for state aid to K-12 schools for FY 2021, which is primarily due to the Base Aid for Student Excellence (BASE) increasing from \$4,436 to \$4,569.
- Added \$21.7 million, all from the State General Fund, for Regents and Post-Secondary Education Institutions for base increases, Excel in Career Technical Education, Cancer Research Center and a Comprehensive Grant Program for FY 2021.
- Added \$19.1 million, including \$15.9 million from the State General Fund, to increase the number of correctional officers, expand the Lansing and Winfield correctional facilities, provide substance abuse treatment and nursing care, and a full-year lease payment for Lansing Correctional Facility for FY 2021.
- Added \$7.5 million, including \$3.8 million from the State General Fund, to increase Family First prevention staff at the Department for Children and Families for FY 2021.
- Added \$22.1 million, including \$9.0 million from the State General Fund, to provide a 5.0 percent increase in the provider reimbursement rates for the Medicaid Home and Community Based Services Intellectual/Developmental Disability waiver for FY 2021.
- Added the following for mental health, all from the State General Fund: \$5.0 million for regional mental health inpatient beds, \$4.0 million for eight acute care psychiatric beds for youth in Hays, \$2.0 million to increase grant funding for community mental health centers, \$1.0 million for a psychiatric residential treatment facility pilot program at Ember Hope in Newton, and \$750,000 for the Douglas County Community Crisis Center.

- Added \$80.8 million, all from special revenue funds, for the 11th year of the Transportation Works for Kansas Program for FY 2021.
- Added \$2.4 million, from the State Water Plan Fund, for a variety of water projects including cost-share payments for conservation practices, streambank stabilization, watershed dams, Conservation Reserve Enhancement Program, water injection dredging, watershed conservation practices and dewatering in Haysville for FY 2021.
- Reduced the transfer from the State Highway Fund to the State General Fund by \$98.1 million to \$113.7 million for FY 2021.

Due to the COVID-19 pandemic, the State is eligible for federal funds related to COVID-19 relief, which must receive State Finance Council approval. Expenditures described in this Overview do not include adjustments approved by either the Legislative Coordinating Council or the State Finance Council from COVID-19 related funds.

In the next several pages of this Overview, the state's budget is described in a variety of different ways:

- It describes expenditures by major purpose according to the four major areas of expenditures—state operations, aid to local units of government, other assistance, and capital improvements (see the Glossary for definitions); by function of government (described more fully in the detailed sections of this publication); and by agency and program. This section includes charts depicting trends in the state budget.
- It provides information regarding the number of state employees, positions approved for FY 2020 and FY 2021; the history of salary increases for the state classified service, for the Regents' faculty, and for classroom teachers; and salaries of selected state officials.
- It includes specific information regarding state aid to local units of government and State General Fund revenue and demand transfers.
- It presents information on State General Fund receipts, as well as a series of tables regarding where each dollar of revenue comes from and how each dollar is spent.

FY 2021 FTE Positions by Function of Government

FTE Positions Authorized for FY 2021

The 2020 Legislature authorized 40,719.9 full-time equivalent (FTE) positions for FY 2021, which is a net decrease of 67.4 positions below the FY 2020 revised number of FTE positions. Included among the adjustments are the following:

- Added 43.0 FTE positions in the Department of Administration and deleted 43.0 FTE positions in the Department of Health and Environment due to the adoption of Executive Reorganization Order (ERO) No. 45 for FY 2021. ERO 45 transferred the State Employee Health Plan and the State Self Insurance Fund from the Department of Health and Environment to the Department of Administration.
- Added 24.0 FTE positions in the Topeka Correctional Facility for correctional officers in the Security program for FY 2021.
- Added 10.0 FTE positions in the Department for Children and Families (DCF) to increase staff for the Protection and Prevention Services program located at the DCF Service Centers for FY 2021.
- Added 8.0 FTE positions in the Department for Children and Families for regional case management positions for the Family First Prevention Services program for FY 2021.
- Added 7.0 FTE positions in the Office of the Attorney General to expand the Medicaid Fraud Control Unit for FY 2021. This addition allows the unit to meet current needs for law enforcement, analytical, and prosecution capacity to combat provider fraud and abuse of patients.
- Deleted 119.5 FTE positions in the Lansing Correctional Facility for a continued staff reduction plan as operations migrate to the new facility for FY 2021. The position decrease is primarily in both the Security and Support Services programs.

BUDGET DETAIL BY FUNCTION OF GOVERNMENT

The following pages provide additional detail regarding the State's budget, organized by function of government. Within each section, expenditures and staffing for all agencies included in the particular function of government are reported in a summary table. Budget highlights from the 2020 Regular Session follow this table. Selected additional information for each function of government follows the summary material.

State spending in Kansas is classified by function of government; that is, agencies that make expenditures for similar programs or purposes are grouped together. The following provides a brief description of the six functions.

General Government is the administrative and regulatory function of state government and includes elected officials, regulatory agencies, the Legislature, the Judiciary, and general administrative agencies.

Human Services is the function of government that provides services to individuals. Services provided include assistance through the Department for Children and Families and Department for Aging and Disability Services, medical services through the Department of Health and Environment, job training through the Department of Labor, and care of the mentally ill and intellectually or developmentally disabled in state hospital and community placements.

Education is the function that provides educational services to Kansans through the State Board of Regents institutions and the Board of Education, including certain indirect education services, such as those provided by the Historical Society.

Public Safety provides safety and security to Kansas citizens. Included in this function are law enforcement agencies and correctional institutions, including the Highway Patrol, the State Fire Marshal, and the juvenile correctional facilities.

Agriculture and Natural Resources protects and regulates the natural and physical resources of the state. This function includes agricultural agencies; the Department of Wildlife, Parks and Tourism; and the Division of Environment portion of the Department of Health and Environment.

Highways and Other Transportation includes the Department of Transportation, which has responsibility for construction and maintenance of highways, as well as other transportation functions.

Glossary of Selected Budget Terms

Aid to Local Units. Aid payments to counties, cities, school districts, and other local government entities. May be from state or federal funds.

Appropriation. A legislative action that makes available for expenditure by a state agency a specified amount of money for a particular purpose during a specified period of time, usually one fiscal year.

Capital Improvements. Cash or debt service payments for projects involving new construction, remodeling and additions, rehabilitation and repair, razing, and the principal portion of debt service for a capital expense. Capital improvements may be funded on a single-year or multi-year basis. A special submission of capital improvements project budget estimates and a five-year capital improvements plan is required.

Demand Transfer. Funds transferred annually from the State General Fund to specified expenditure accounts under the authority of laws other than appropriations acts. Examples include transfers to the Local *Ad Valorem* Tax Reduction Fund and County-City Revenue Sharing Fund.

Expenditure. The actual payment of money out of any state fund.

Expenditure Limitation. A limitation placed by the Legislature upon the expenditures that may be made from a special revenue fund, the total receipts of which are appropriated to a single state agency.

Fiscal Year. The state fiscal year (FY) is a 12-month period beginning July 1 and ending June 30 of the following year, which is used as the state accounting and appropriation period. The fiscal year is named for the year in which it ends. The federal fiscal year runs from October 1 through September 30 of the following year.

Full-time Equivalent (FTE). A mathematical calculation for equating to full-time for a given year the number of full-time and part-time classified and unclassified personnel (excluding seasonal and temporary employees) in the civil service system.

Fund. A reserve of money established by statute or by an appropriations bill that is set aside for a designated purpose.

Other Assistance, Grants, and Benefits. Payments made to or on behalf of individuals as aid, including public assistance benefits, unemployment benefits, and tuition grants.

Position Limitation. A limitation established in an appropriations bill on the number of FTE positions authorized for a given state agency.

Revenue Estimates. Projections of anticipated State General Fund revenue for the current and budget years. An estimate is developed twice a year on a consensus basis by the Division of the Budget, the Legislative Research Department, the Department of Revenue, and university economists.

Special Revenue Funds. Funds into which statutorily earmarked receipts are deposited. These consist largely of special fees or levies assessed by the State as well as federal grant-in-aid receipts. Generally, these moneys must be expended for programs and activities directly related to the source or sources of revenue.

State General Fund (SGF). A fund for revenues not earmarked or dedicated for special purposes. It is used to finance governmental operations not provided for by special funds. The principal revenue sources for the State General Fund include individual and corporate income taxes, sales and compensating use taxes, severance and other excise taxes, inheritance taxes, and interest earnings.

State Operations. An expenditure summary category incorporating actual agency operating costs for salaries and wages, contractual services, commodities, and capital outlay.
