KANSAS CENSUS POPULATION AND ESTIMATES 2010-2019

On March 21, 2020, the U.S. Census Bureau announced delays in the collection and distribution of information collected during the 2020 Census enumeration due to the COVID-19 outbreak. Previously, census data had been delivered to each state by April 1 the year after the census was completed (the year ending in 1). The deadline for states to receive 2020 Census data is now July 31, 2021, with the potential for additional delays.

The Census Bureau provides estimated population numbers for each state, by county, each year between census enumerations. Below are three tables containing population data and estimates for Kansas counties from the 2010 Census through the 2019 estimates:

- Table 1 contains the data in alphabetical order by county;
- Table 2 organizes the information from largest estimated population gain (number of residents) to largest estimated loss, based on the total estimated difference between the 2010 Census and 2019 estimates;
- Table 3 organizes the information from largest estimated population loss (number of residents) to largest estimated population gain, based on the total estimated difference between the 2010 Census and 2019 estimates.

Table 1: Kansas Population Data and Estimates by County, 2010 Census through 2019

| County | April 1, | July 1, | July 1, | July 1, | July 1, | July 1, | July 1, | July 1, | July 1, | Popula- | Percent |
|-------------|----------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|-------------------------|-------------------------|
| | 2010 Census | 2012 Estimate | 2013 Estimate | 2014 Estimate | 2015 Estimate | 2016 Estimate | 2017 Estimate | 2018 Estimate | 2019 Estimate | Change 2010- 2019 | Change 2010- 2019 |
| Allen | 13,371 | 13,306 | 13,069 | 12,892 | 12,683 | 12,670 | 12,555 | 12,501 | 12,369 | -1,002 | -7.49% |
