**KANSAS HOUSING RESOURCES CORPORATION
ECONOMIC IMPACT STATEMENT
K.A.R. 127-2-2**

I. Description of Proposed Regulation and its intended Effect.

In response to the Federal Manufactured Housing Improvement Act of 2000 (“Federal Act”), Title VI, Pub. L. 106-659, 114 Stat. 2997, the Legislature amended the Kansas Manufactured Housing Act (“State Act”), K.S.A. 58-4216 *et seq.*, to provide for the regulation of manufactured home installation in the State. The State Act charged Kansas Housing Resources Corporation (“KHRC”) with the responsibility of adopting uniform installation standards, as well as monitoring the Federal standards thereafter to ensure that Kansas is in compliance with the Federal Act. KHRC adopted the regulation containing the installation standards at K.A.R. 127-2-2 on March 6, 2009.

In September 2014, the U.S. Department of Housing and Urban Development (“HUD”) issued a final rule amending a portion of the Federal standards pertaining to ground anchor installations. This revision at the Federal level required KHRC to propose this amendment to the installation standards at K.A.R. 127-2-2 to ensure compliance with the Federal Act.

II. Reason the Proposed Regulation is Required, Including Whether or Not the Regulation is Mandated by Federal Law.

The amendment to the existing regulation is required under the State Act to ensure compliance with the Federal Act. If KHRC’s installation regulation program does not meet minimum Federal requirements, HUD will administer the program in the State. KHRC’s proposed amendment to the regulation does not exceed the requirements of the Federal Act.

III. Anticipated Economic Impact upon KHRC, Other Governmental Agencies, Small Employers, Private Citizens, and Consumers of the Products or Services.

The proposed amendment to the regulation will have no economic impact on KHRC, as it is a technical revision that does not substantively change administration of the program. KHRC does not anticipate significant economic impact on other governmental agencies, small employers, private citizens or installers or consumers of the manufactured homes installed subject to the regulation, as the revision is technical and limited in its scope.

IV. Less Costly or Intrusive Methods That Were Considered, but Rejected, and the Reason for Rejection.

KHRC did not consider and subsequently reject less costly or intrusive methods, as the proposed regulation simply adopts the most current Federal standards to ensure compliance with the Federal Act.
