**KANSAS SECRETARY OF STATE
ECONOMIC IMPACT STATEMENT
7-23-14 and 7-23-15**

I. Summary of Proposed Regulations, Including purpose:

K.A.R. 7-23-14. This regulation details the process by which county election officers and the Secretary of State should assess documents submitted as evidence of United States citizenship. Evidence of United States citizenship is used to ensure that qualified electors are eligible to register to vote. The purpose of this regulation is to give guidance to the assessor as to which factors should be considered while taking into account possible events in the life of an individual such as marriage, divorce, name-change, change in gender, etc. This regulation ensures that qualified electors will be able to vote regardless of the existence of these life events. Additionally, this regulation sets out the timeline for the submission of a proof of citizenship document by a voter as it relates to other registration and election dates.

Subsection (c) was revised to state once a registered voter has provided proof of citizenship, any subsequent change to the voter's registration record would not require the registered voter to resubmit evidence of United States citizenship.

K.A.R. 7-23-15. This regulation details the procedure to follow when a voter registration application is submitted to the county election office and a determination is made that the application is not complete. Each county election office shall maintain a list of incomplete applications for voter registration. Any applicant whose application has been designated as incomplete may provide the required information within 90 days after the application was received by the county election office. If the application is not completed by the applicant within 90 days, the application shall be rejected by the county election officer and the application shall be designated as canceled. Each application that is rejected shall be required to submit a new application in order to become registered to vote.

II. Federal law requirements:

The proposed regulations and amendments are not mandated by federal law, nor are they required for participation in, or implementation of, a federally subsidized or assisted program. The proposed regulations and amendments do not exceed any requirements of federal law.

III. Economic Impact:

There are no significant economic impacts anticipated because of these regulations on any county election officer, state agency or the general public because the assessment of evidence of United States citizenship is required by statute. These regulations merely give details regarding the process by which such evidence should be received and assessed, and provide a time period for any county election officer to make a determination on the sufficiency of a voter registration application.

IV. Less Costly or Intrusive Methods:

The evaluation of other less costly or intrusive methods was unnecessary because it is anticipated that the amendments described will have no significant economic impact while maintaining the present level of services. These regulations merely provide details to requirements now existing under state law.
