

Proposed

STATE OF KANSAS
BOARD OF HEALING ARTS

Notice of Public Hearing on Proposed Administrative Regulations

A public hearing will be conducted on Thursday, February 11, 2016, at 11:00 a.m. in the board room at the Kansas State Board of Healing Arts, 800 SW Jackson, Lower Level – Suite A, Topeka, Kansas, to consider proposed new regulations and amendments to existing regulations related to licensure of and practice by Physician Assistants.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the above-referenced rules and regulations. All interested parties may submit comments prior to the hearing to Kelli Stevens, General Counsel, at the Board of Healing Arts at the address above, or via e-mail to healingarts@ksbha.ks.gov. All interested parties will be given a reasonable opportunity to present their views, orally or in writing, concerning the amendment of the proposed regulations during the public hearing. In order to provide all parties with an opportunity to present their views, it may be necessary to request each participant limit any oral presentations to five minutes.

Copies of the proposed regulations and the Economic Impact Statement for the proposed regulations may be obtained from the Kansas State Board of Healing Arts, 800 SW Jackson, Lower Level – Suite A, Topeka, Kansas 66612; on the agency website at <http://www.ksbha.org/publicinformation/publicinformation.shtml>, by contacting Jenne Cook at (785) 296-2482, or by e-mailing the agency at healingarts@ksbha.ks.gov.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations being considered and the economic impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Barbara Montgomery at (785) 296-8558 or at bmontgomery@ksbha.ks.gov. Individuals with hearing and/or speech disabilities may contact the Kansas Relay Center at 800-766-3777 for communication accommodations. Handicapped parking is located on 8th Street and in the building's parking garage. From the street, both the West entrance to the building on Jackson Street and the North entrance on 8th Street are accessible.

A summary of the proposed new and amended regulations and their economic impact follows:

K.A.R. 100-28a-1a. Definitions. This new regulation defines terms used in the PA Practice Act and implementing regulations including terms for different practice locations, levels of supervision, emergency medical conditions, supervision, substitute supervising physician and the required forms for a PA to practice.

K.A.R. 100-28a-6. Scope of practice. This regulation sets forth the scope of practice for PAs. The amendments implement pending January 11, 2016 statutory change in title from “responsible” to “supervising” physician; update language regarding physician-PA communication methods; clarify when a PA has authority to practice for patients with emergency medical conditions; and make other minor language clarifications.

K.A.R. 100-28a-9. Active practice request form; content. This regulation sets forth the form requirements used to delineate a physician-PA supervisory relationship that is filed with the agency prior to a PA being permitted to practice. The amendments add more substantive and detailed information regarding each practice location, the supervising physician-PA relationship, delegated services and types of supervision, if applicable, substitute supervisor information, and include prescription drug dispensing authority which was added to K.S.A. 65-28a08 in the 2015 legislative session.

K.A.R. 100-28a-9a. Active practice request form; requirements. This new regulation provides for a date of July 1, 2016, by which current PA licensees already practicing under the prior “responsible physician request” form and a “protocol” will be required to submit the new “active practice request form” that includes a “written agreement.” It also contains requirements for submitting amendments and maintaining the forms.

K.A.R. 100-28a-10. Supervising physician. This regulation details a physician’s requirements for supervision of a PA. The amendments alter the nature of the regulation from one that sets a standard for adequate supervision to merely being a set of requirements. The rationale for this change is that the adequacy of supervision is often subjective and correlates closely with the standard of care for treating patients. The amendments also add PA dispensing authority to implement 2015 legislation. An added new requirement is that the supervising physician may only delegate acts that are within the physician’s own competence and customary practice.

K.A.R. 100-28a-11. Duty to communicate; emergency medical conditions. This regulation specifies the communication requirements between PAs and physicians. The amendments update physician titles and add “any treatment that exceeds the physician assistant’s competence” as a new circumstance requiring a PA to communicate with their supervising physician. New subsection (b) is added to the required procedure if a PA has to provide treatment beyond the scope of their authorized practice to a patient with an emergency medical condition.

K.A.R. 100-28a-12. Substitute supervising physician. This specifies the requirements for a substitute supervising physician in the supervising physician’s absence. The amendments to the regulation update physician titles and remove unnecessary language.

K.A.R. 100-28a-13. Prescription-only drugs. The purpose of this regulation is to specify PAs’ prescription drug authority. The amendments to the regulation add dispensing authority to implement the corresponding 2015 statutory amendment in K.S.A. 65-28a08. Other minor language clarifications and updates are made throughout to conform to pharmacy regulation language and/or actual practice.

K.A.R. 100-28a-14. Different practice location. This regulation sets requirements for a PA to practice at a different practice location. The amendments to the regulation update physician titles, clarify terms and add a requirement that a Kansas physician practice at the different location at least once every 30 days and that different practice locations be specified in the PA’s active practice request form and written agreement.

K.A.R. 100-28a-15. Licensure; cancellation. This regulation specifies the timeframe for when a PA license is cancelled. The amendments implement 2015 legislative changes to K.S.A. 65-28a03(b) replacing the word “expire” with “cancelled” to remove prior confusion about whether a licensee was still licensed and able to practice with an expired license.

K.A.R. 100-28a-17. Number of physician assistants supervised; limitation for different practice location. This regulation specifies the limit on how many PAs a physician may supervise. The amendments effectuate the repeal of K.S.A. 65-28a10, which contained a strict 2-PA per physician limit, and implement the amendments to K.S.A. 65-28a08(d) which give the Board authority to adopt regulations limiting the number of PAs that a supervising

physician may supervise. Consequently, these amendments replace the 2-PA limit with substantive factors for a physician to consider in determining the number of PAs he or she is able to supervise. The amendments also place a 3-PA limit on the total number of PAs a supervising physician may supervise that practice at a different practice location, unless prior Board approval is received for up to 5 PAs.

Costs to the State Board of Healing Arts would include legal, licensing and information technology staff time to change electronic and paper forms to conform to new and amended requirements. Additionally, staff time will be required to provide licensees with assistance in complying with new form requirements and educate licensees and stakeholders on the amendments. Costs to PAs, physicians, and healthcare facilities may include time spent meeting new, more detailed form requirements, and time required to become knowledgeable about the substantive amendments. It is anticipated that the amended regulations will provide a positive economic impact on private individuals in that more PAs may have expanded practice opportunities in Kansas due to greater latitude afforded in their physician supervisory relationships and scope of practice which, in turn, should improve the general public's access to healthcare provided by these individuals.

100-28a-1a. Definitions. As used in this article, each of the following terms shall have the meaning specified in this regulation:

(a) "Active practice request form" means the board-provided form that each physician assistant is required to submit to the board pursuant to K.S.A. 65-28a03, and amendments thereto, as a condition of engaging in active practice and that is signed by the physician assistant, supervising physician, and each substitute supervising physician. Each active practice request form contains a section called the written agreement.

(b) "Different practice location" means a practice location at which a supervising physician is physically present less than 20 percent of the time that the practice location provides medical services to patients. This term shall not include a medical care facility, as defined in K.S.A. 65-425 and amendments thereto.

(c) "Direct supervision" means a type of supervision in which the supervising physician or substitute supervising physician is physically present at the site of patient care and capable of immediately providing direction or taking over care of the patient.

(d) "Emergency medical condition" means the sudden and, at the time, unexpected onset of a person's health condition that requires immediate medical attention, for which the failure to provide medical attention would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's health in serious jeopardy.

(e) "Indirect supervision" means a type of supervision in which the supervising physician or substitute supervising physician can be physically present at the site of patient care within 15 minutes to provide direct supervision.

(f) "Off-site supervision" means a type of supervision in which the supervising physician or substitute supervising physician is not physically present at the site of patient care but is immediately available by means of telephonic or electronic communication.

(g) "Practice location" means any location at which a physician assistant is authorized to practice, including a medical care facility as defined in K.S.A. 65-425 and amendments thereto.

(h) "Substitute supervising physician" means each physician designated by prior arrangement pursuant to K.S.A. 65-28a09, and amendments thereto, to provide supervision to the physician assistant if the supervising physician is temporarily unavailable.

(i) "Supervision" means oversight by a supervising physician or a substitute supervising physician of delegated medical services that may be performed by a physician assistant. The types of supervision shall include direct supervision, indirect supervision, and off-site supervision.

(j) "Written agreement" means the section of the active practice request form that specifies the agreed scope of authorized medical services and procedures and prescription-only drug authority for each physician assistant. (Authorized by K.S.A. 2015 Supp. 65-28a02 and 65-28a08; implementing K.S.A. 2015 Supp. 65-28a03, 65-28a08, and 65-28a09; effective, T-_____, _____; effective P-_____.)

(1) The supervising physician's ability to meet the requirements for supervision specified in K.A.R. 100-28a-10 for each physician assistant;

(2) the supervising physician's ability to provide the types of supervision that may be specified in the written agreement with each physician assistant;

(3) the specialty and setting of each practice location at which each physician assistant will provide services;

(4) the complexity of the patient population that each physician assistant will be treating;
and

(5) the clinical experience and competency of each physician assistant.

(b)(1) A supervising physician shall not supervise more than a total of three physician assistants who provide services at a different practice location under K.A.R. 100-28a-14, regardless of the number of different practice locations, without the prior approval of the board. A supervising physician shall not under any circumstances supervise more than five physician assistants who provide services at a different practice location.

(2) The approval to supervise more than a total of three physician assistants who will provide services at a different practice location may be granted by the board if the supervising physician submits a signed request on a board-provided form that meets the following requirements:

(A) Verifies that the combined number of work hours of all the physician assistants who will provide services at a different practice location will not exceed 200 hours per week; and

(B) demonstrates that the supervising physician is able to adequately supervise each physician assistant under the supervising physician's supervision based on the factors specified

**KANSAS STATE BOARD OF HEALING ARTS
ECONOMIC IMPACT STATEMENT**

**K.A.R. 100-28a-1a, 100-28a-6, 100-28a-9, 100-28a-9a, 100-28a-10, 100-28a-11, 100-28a-12,
100-28a-13, 100-28a-14, 100-28a-15, 100-28a-17**

Pursuant to the requirements of K.S.A. 77-416(b), the Kansas State Board of Healing Arts submits the following Economic Impact Statement relating to two new proposed regulations and nine proposed amended regulations that implement various provisions of the Physician Assistant Licensure Act (“PA Act”) which were amended during the 2014 and 2015 legislative sessions.

I. Summary of Proposed Regulations:

K.A.R. 100-28a-1a. (new)

This is a new definitions regulation for terms used in the PA Act and implementing regulations. Some of the newly defined terms will replace current terms that have been used for several years that are either undefined or needed clarification.

K.A.R. 100-28a-6. (amended)

The purpose of this regulation is to specify a PA’s scope of practice. The amendments reflect the upcoming January 11, 2016 statutory change in title from “responsible” to “supervising” physician; update language regarding physician-PA communication methods; clarify when a PA has authority to practice for patients with emergency medical conditions; and make other minor language clarifications.

K.A.R. 100-28a-9. (amended)

The purpose of this regulation is to detail the form requirements used to delineate a physician-PA supervisory relationship that is filed with the agency prior to a PA being permitted to practice. The amendments add more substantive and detailed information regarding each practice location, the supervising physician-PA relationship, delegated services and types of supervision, if applicable, substitute supervisor information, and include prescription drug dispensing authority which was added to K.S.A. 65-28a08 in the 2015 legislative session.

K.A.R. 100-28a-9a. (new)

This new regulation provides for a date by which current PA licensees already practicing under the prior “responsible physician request” form and a “protocol” will be required to submit the new “active practice request form” that includes a “written agreement.” It also contains requirements for submitting amendments and maintaining the forms.

K.A.R. 100-28a-10. (amended)

This regulation details the requirements for supervision of a PA. The amendments to the regulation alter the nature of the regulation from one that sets a standard for adequate supervision to merely being a set of requirements. The rationale for this change is that the adequacy of supervision is often subjective and correlates closely with the standard of care for treating patients. Several of the requirements in this regulation are mostly technical in nature. The amendments also add the new dispensing authority. Lastly, a new requirement is added that the

supervising physician only delegate acts that are within the physician's own competence and customary practice.

K.A.R. 100-28a-11. (amended)

The purpose of this regulation is to specify the communication requirements between PAs and physicians. The amendments update the physician titles and add "any treatment that exceeds the physician assistant's competence" as a new circumstance that requires a PA to communicate with their supervising physician. New subsection (b) is added to address the procedure to be followed if a PA has to provide treatment beyond the scope of their authorized practice to a patient with an emergency medical condition.

K.A.R. 100-28a-12. (amended)

The purpose of this regulation is to specify the requirements for a substitute supervising physician in the supervising physician's absence. The amendments to the regulation update physician titles and remove unnecessary language.

K.A.R. 100-28a-13. (amended)

The purpose of this regulation is to specify PAs' prescription drug authority. The amendments to the regulation add dispensing authority to implement the corresponding 2015 statutory amendment in K.S.A. 65-28a08. Other minor language clarifications and updates are made throughout to conform to pharmacy regulation language and/or actual practice.

K.A.R. 100-28a-14. (amended)

This regulation sets requirements for a PA to practice at a different practice location. The amendments to the regulation update physician titles, clarify terms and add a requirement that different practice locations be specified in the PA's active practice request form and written agreement.

K.A.R. 100-28a-15. (amended)

The purpose of this regulation is to specify the timeframe for when a PA license is cancelled. Current regulatory language indicates that a PA's license will "expire." The amendments to the regulation implement 2015 legislative changes to K.S.A. 65-28a03(b), by replacing the word "expire" with "cancelled" to remove confusion about whether a licensee was still licensed and able to practice with an expired license.

K.A.R. 100-28a-17. (amended)

This regulation specifies the limits on how many PAs a physician may supervise. The purpose of the amendments to the regulation is to effectuate the repeal of K.S.A. 65-28a10, which contained a strict 2-PA per physician limit, and implement the amendments to K.S.A. 65-28a08(d) which give the Board authority to adopt regulations limiting the number of PAs that a supervising physician may supervise. Consequently, these amendments replace the 2-PA limit with substantive factors for a physician to consider in determining the number of PAs he or she is able to supervise. The amendments do place a 3-PA limit on the total number of PAs a supervising physician may supervise that practice at a different practice location, unless prior Board approval is received.

II. Federal Mandate:

These regulations are not mandated by any federal law.

III. Anticipated Economic Impact upon the Kansas Board of Healing Arts:

Costs to the State Board of Healing Arts would include legal, licensing and information technology staff time to change electronic and paper forms to conform to new and amended requirements. Additionally, staff time will be required to provide licensees with assistance in complying with new form requirements. It is also anticipated that staff time will be required to educate licensee and stakeholders on the regulations' changes.

IV. Anticipated Economic Impact upon Other Governmental Agencies and upon Private Business or Individuals:

Costs to PAs, physicians, and healthcare facilities would include time spent on updating, completing and submitting the new required forms, as well time required to become knowledgeable about the new regulations' provisions.

It is anticipated that the amended regulations will provide a positive economic impact on private individuals in that more PAs may have expanded practice opportunities in Kansas due to greater latitude afforded in their physician supervisory relationships and scope of practice which, in turn, should improve the general public's access to healthcare provided by these individuals.

V. Less Costly or Intrusive Methods That Were Considered, but Rejected, and the Reason for Rejection:

No other less costly or less intrusive methods were identified or considered for the purpose of these regulations.
