DIVISION OF THE BUDGET

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

In order to evaluate the impact of the proposed medical fee schedule changes, NCCI's methodology includes three major steps.

1. Calculate the percentage change in maximum reimbursements;
2. Estimate the price level change as a result of the revised fee schedule and
3. Determined the share of cost that are subject to the fee schedule. In their analysis, NCCI primarily relies on two data sources: a) Detailed medical data underlying the calculations in this analysis are based on NCCI's Medical Data Call for Kansas for Service Year 2016 b) The share benefit costs attributed to medical benefits is based on NCCI's Financial Call data for Kansas from the latest three policy years projected to the effective date of benefit changes. (For a detailed analysis please review the attached NCCI's report for the 2019 proposed changes)

Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent?
