Re: Amended Report of the August 10, 2020, Meeting of the Joint Committee on
Administrative Rules and Regulations

With this report, the Joint Committee on Administrative Rules and Regulations (Committee) provides its comments on rules and regulations reviewed at its meeting of August 10, 2020. Agencies are asked to respond to each comment or request for information; responses are compiled and maintained by staff of the Kansas Legislative Research Department.

Kansas Department of Wildlife, Parks and Tourism

KAR 115-5-1, furbearers and coyotes, legal equipment, taking methods, and general provisions; KAR 115-6-1, fur dealer license, application, authority, possession of furs, records, and revocation.

Concern. Some of the Committee members are concerned about the safety of hunting in dim light or at night using artificial light, scopes and equipment that amplify visible light, and thermal-imaging scopes and thermal-imaging equipment. The Committee requests the agency provide information on safety of hunting using this equipment and in which nearby states this is allowed. The Committee also suggests that authority for allowing use of various types of devices for hunting purposes be reviewed by the appropriate standing committees of the Legislature during the 2021 Legislative Session. [Note: This comment was amended by the Committee at its December 2, 2020, meeting.]

KAR 115-14-12, falconry, permits, applications, and examinations; KAR 115-14-13, falconry, facilities, equipment, care requirements, and inspections; KAR 115-14-14, falconry, taking, banding, transporting, and possessing raptors.

KAR 115-14-12. The Committee requests additional information about legal responsibilities of parents and guardians assigned in paragraph (j)(1), including the origin of this provision and any applicable case law.

Request. For several preceding years and the current year, the Committee requests information on the numbers of falconry permits

issued and renewed in Kansas and the numbers of raptor take permits available and issued.

State Board of Healing Arts

KAR 100-7-1, designated examinations for medicine and surgery and osteopathic medicine and surgery, limitation on attempts; KAR 100-76-6, continuing education.

The Committee had no comments.

Department of Health and Environment

KAR 28-1-40, definitions; KAR 28-1-41, contact tracers; KAR 28-1-42, contact data, communication with contacts; KAR 28-1-43, surrender or destruction of contact data; KAR 28-1-44, sunset provision.

Request. The Committee requests information related to contact tracers, paid directly, paid under contract, or volunteer, at the agency and in local health departments in Kansas. It requests information on current numbers of those who are paid, under contract, or volunteer and the numbers of contact tracers the Department of Health and Environment and the local health agencies plan to hire in response to the COVID-19 pandemic. It also asks what background checks are required for contact tracers.

Request. The Committee requests information on the data points collected about each contact and requests a copy of any script used by contact tracers at the agency and at major health departments across the state. It requests information on how these scripts vary from scripts used for contact tracing with regard to other infectious diseases and precisely how a person contacted gives consent for participating in COVID-19 contact tracing.

Request. The Committee requests information with regard to the security of data collected by contact tracers. The information requested includes the owners of the devices used to capture the data, where the data are kept, how those data are transferred, types of protections for the data such as encryption, the software used for contact tracing, the process by which the software was selected, the related infrastructure and software costs, and the locations of servers on which the data are stored. The

Committee expresses its concern with retention of data related to contact tracing. It notes the COVID-19 Contact Tracing Privacy Act enacted in 2020 Special Session HB 2016 that authorizes this contact tracing expires May 1, 2021, and asks how the agency will ensure no personal data related to COVID-19 contact tracing will be retained.
