

Notice of Public Hearing

A public hearing will be conducted by the Wildlife, Parks, and Tourism Commission at 6:30 p.m., Thursday, November 19, 2020 at the Buffalo Bill Cultural Center, 3083 US Highway 83, Oakley, Kansas, to consider the approval and adoption of the proposed regulations of the Kansas Department of Wildlife, Parks, and Tourism.

A general discussion and workshop meeting on the business of the Wildlife, Parks, and Tourism Commission will begin at 1:30 p.m., November 19 at the location listed above. The meeting will recess at approximately 5:00 p.m. and then resume at 6:30 p.m. at the same location for the regulatory hearing and more business. There will be public comment periods at the beginning of the afternoon and evening meeting for any issues not on the agenda and additional comment periods will be available during the meeting on agenda items. Old and new business may also be discussed at this time. If necessary to complete business matters, the Commission will reconvene at 9:00 a.m. November 20 at the location listed above.

Any individual with a disability may request accommodation in order to participate in the public meeting and may request the meeting materials in an accessible format. Requests for accommodation to participate in the meeting should be made at least five working days in advance of the meeting by contacting Sheila Kemmis, Commission Secretary, at (620) 672-5911. Persons with a hearing impairment may call the Kansas Commission for the Deaf and Hard of Hearing at 1-800-432-0698 to request special accommodations.

This 60-day notice period prior to the hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed administrative regulations.

All interested parties may submit written comments prior to the hearing to the Chairman of the Commission, Kansas Department of Wildlife, Parks, and Tourism, 1020 S. Kansas Ave., Suite 200, Topeka, KS 66612 or to [sheila.kemmis@ks.gov](mailto:sheila.kemmis@ks.gov) if electronically. All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to the adoption of the proposed regulations. During the hearing, all written and oral comments submitted by interested parties will be considered by the commission as a basis for approving, amending and approving, or rejecting the proposed regulations. To provide all parties with an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

The regulations that will be heard during the regulatory hearing portion of the meeting is as follows:

**K.A.R. 115-1-1.** This permanent regulation establishes definitions. The proposed changes would clean up and clarify language about the definition of carp.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-2-1.** This permanent regulation establishes amounts of fees. The proposed

changes would establish a price for nonresident landowner and tenant elk permits, reduce resident and nonresident calendar day fishing licenses, and create a reduced price youth trout permit.

**Economic Impact Summary:** The changes collectively could result in a reduction to the wildlife fee fund in the amount of \$72,355. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-4-4a.** This permanent regulation establishes legal equipment and taking methods for wild turkeys. The proposed changes would allow the use of draw locking devices, similar to recent changes for big game legal equipment.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-7-3.** This permanent regulation establishes provisions for the taking and use of baitfish or minnows. The proposed changes would allow the use of silver carp and bighead carp larger than 12 inches in total length to be used as baitfish, provided the two carp types are not transported from the water live.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-7-10.** This permanent regulation establishes special provisions for fishing. The proposed changes would update the reference document in relation to designated aquatic nuisance species waters.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-18-7.** This permanent regulation establishes the application, permit and general provisions for the use of crossbows and locking draws for big game and wild turkey hunting by persons with disabilities. The regulation is proposed for revocation as those equipment types are now authorized for general use.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-18-10.** This permanent regulation establishes prohibitions, permit requirements and restrictions for importation and possession of certain wildlife. The proposed changes would add species already listed as injurious by federal law, which already prohibits possession of these species.

**Economic Impact Summary:** No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-18-12.** This permanent regulation establishes requirements, restrictions and

permit duration for the trout permit. The proposed changes would remove the exemption for persons under 16 from obtaining a trout permit in conjunction with changes in other regulations for take and price structure.

**Economic Impact Summary:** The economic impact is contained in K.A.R. 115-2-1. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

**K.A.R. 115-25-14.** This exempt regulation establishes creel limits, size limits, possession limits and open seasons for fishing. The proposed version of the regulation would update the reference document for size and length limits at various waterbodies throughout the state and adjust the trout creel limit for youths.

**Economic Impact Summary:** If fishing license and permit sales are similar to 2019, the proposal would generate approximately \$6,794,800 to the agency and an additional \$292,962,000 to the Kansas economy. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

Copies of the complete text of each regulation and its respective economic impact statement may be obtained by writing the chairman of the Commission at the address above, electronically on the department's website at [ksoutdoors.com](http://ksoutdoors.com), or by calling (785) 296-2281.

An estimate, expressed as a total dollar figure, of the total implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

\$0.

Do the above total implementation and compliance costs exceed \$3.0 million over any two-year period?

YES ☐ NO ☒

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

The proposed amendments to the regulation are designed to reduce barriers to possible uses of dead nonsport fish that are also prohibited species to possess live.

Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? If applicable, document when the public hearing was held, those in attendance, and any pertinent information from the hearing.

YES ☐ NO ☒

The agency held a public hearing on this regulation on June 25 via teleconference, where 26 members of the public attended. The agency will also hold hearings on August 20 via teleconference, September 25 in Topeka, and November 19 in Oakley.

- G. If the proposed rule(s) and regulation(s) increases or decreases revenues of cities, counties or school districts, or imposes functions or responsibilities on cities, counties or school districts that will increase expenditures or fiscal liability, describe how the state agency consulted with the League of Kansas Municipalities, Kansas Association of Counties, and/or the Kansas Association of School Boards.

**I. Brief description of the proposed rule(s) and regulation(s).**

This proposed amendments to the regulation would reduce the price of daily resident and nonresident fishing licenses, create a price category for nonresident tenant elk permits and create a youth trout permit at a reduced price.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. *(If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)***

This is not a federal mandate. Missouri, Oklahoma, Nebraska and Colorado all have varying fees dealing with licenses and permits.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

The proposed amendments will not enhance or restrict business activities or growth.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

The proposed amendments will reduce costs for resident and nonresident anglers when purchasing daily fishing permits, add a category of elk permits for nonresident tenants and create a youth trout permit at a reduced cost.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

None.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

The proposed benefit is a reduction in fees for resident and nonresident anglers, a reduced price youth trout permit and allow elk hunting opportunities for nonresident tenants.

**E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;**

There are no costs to business and economic development associated with this proposal.

**F. An estimate, expressed as a total dollar figure, of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.**

There are no implementation or compliance costs with this proposal. Reducing the fees for resident and nonresident daily permits will result in a reduction to the wildlife fee fund in the amount of \$79,335 annually. It is estimated that the nonresident tenant elk permit will generate approximately \$4,200. It is also estimated that the youth trout permit will generate approximately \$2,800.

YES ☐ NO ☒

**Give a detailed statement of the data and methodology used in estimating the above cost estimate.**

In 2019, the agency sold 10,899 resident and 11,575 nonresident daily fishing permits.  $10,899 \times 2.50 = 27,247.50$  +  $11,575 \times 4.50 = 52,087.50$  resulting in a total reduction to the WFF of 79,335.00. It is estimated that 14 nonresident tenant elk permits will be sold  $\times 300 = \$4200$ . It is estimated that 622 youth trout permits will be sold  $\times 4.50 = \$2,799$ .

**I. Brief description of the proposed rule(s) and regulation(s).**

The proposed amendments to the regulation include adding species already listed as injurious species under federal law and possession is already prohibited.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. *(If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)***

The federal government already prohibits the possession of the species proposed for listing. The species are already prohibited from possession in the surrounding states.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

The ban on possession of the proposed species will not enhance or restrict business activities and growth because the species are already prohibited from possession under federal law.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

None.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

None.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

The species are already prohibited from possession under federal law. The listing of species under state law provide one source of information for our constituents.

DIVISION OF THE BUDGET

- E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;

The prohibited possession of the proposed species is already in effect under federal law so there is no impact in Kansas.

- F. An estimate, expressed as a total dollar figure, of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

\$0

An estimate, expressed as a total dollar figure, of the total implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

\$0

Do the above total implementation and compliance costs exceed \$3.0 million over any two-year period?

YES ☐ NO ☒

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

The species are not currently offered within the state for sale. Therefore, there is no methodology or data to be used in estimating the above cost estimate.

Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? If applicable, document when the public hearing was held, those in attendance, and any pertinent information from the hearing.

YES ☐ NO ☒

The agency held a public hearing on this regulation on June 25 virtually, where 26 members of the public attended. The agency will also hold hearings on August 20 virtually, September 25 in Topeka, and November 19 in Oakley.

- G. If the proposed rule(s) and regulation(s) increases or decreases revenues of cities, counties or school districts, or imposes functions or responsibilities on cities, counties or school districts that will increase expenditures or fiscal liability, describe how the state agency consulted with the League of Kansas Municipalities, Kansas Association of Counties, and/or the Kansas Association of School Boards.

Division of the Budget

**I. Brief description of the proposed rule(s) and regulation(s).**

This permanent regulation relates to the trout permit, requirements, restrictions, and permit duration. The proposed amendments to the regulation would require every angler fishing for trout to have a trout permit. Anglers under 16 would still be exempt from the licensing requirements.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. (If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)**

This is not a federal mandate. Missouri, Oklahoma, Nebraska and Colorado all have varying regulations dealing with fishing and permits. Missouri requires a trout permit for all anglers but exempts anglers under 16 from having a license. Colorado requires a fishing license for nonresidents under 18 but not residents. Nebraska and Oklahoma do not have trout permits and exempt all anglers under 16 from having a license.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

The proposed revocation will neither enhance nor restrict business activities and growth.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

Anglers under 16 would be required to have a reduced price trout permit.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

None.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

The proposed benefits include increasing the base to pay for the trout program and being able to count those anglers in the federal sportfish and restoration program as an angler.

**E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;**

The agency has proposed a reduced price for the permit associated with this proposal.

**F. An estimate, expressed as a total dollar figure, of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.**

Although the fee structure for permits is contained in K.A.R. 115-2-1 and the information is contained in that economic analysis, the change in permit structure will generate \$2799 approximately.

**An estimate, expressed as a total dollar figure, of the total implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.**

Although the fee structure for permits is contained in K.A.R. 115-2-1 and the information is contained in that economic analysis, the change in permit structure will generate \$2,799 approximately.

**Do the above total implementation and compliance costs exceed \$3.0 million over any two-year period?**

YES ☐ NO ☒

**Give a detailed statement of the data and methodology used in estimating the above cost estimate.**

It is estimated that 622 youth trout permits will be sold x 4.50=\$2,799.

Division of the Budget

**I. Brief description of the proposed rule(s) and regulation(s).**

This proposed exempt regulation establishes fishing seasons. The proposed version would add adjust length and creel limits within the reference document. The proposed version would also change the creel limit for anglers under 16 in relation to other proposed regulation changes.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. *(If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)***

This is not a federal mandate. Missouri, Oklahoma, Colorado and Nebraska all have fishing opportunities managed by dates, times, species and locations.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

The regulation proposal would not likely restrict business activities and growth.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

The version of the proposed regulation already allows various types of fishing by species and location. The proposed changes would not have any significant compliance costs.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

Guide businesses, bait retailers, state parks.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

Fishing is funded by user fees. License buyers pay the way for public fishing opportunities within Kansas.

- E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;

Again, the proposal and potential alternatives would likely have no substantial measure on the economic impact on businesses because fishing seasons already exist.

- F. An estimate, expressed as a total dollar figure, of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

There are no implementation or compliance costs expected to be incurred by business or local governments.

An estimate, expressed as a total dollar figure, of the total implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.

There are no implementation or compliance costs expected to be incurred by business or local governments.

Do the above total implementation and compliance costs exceed \$3.0 million over any two-year period?

YES ☒ NO ☐

Give a detailed statement of the data and methodology used in estimating the above cost estimate.

The total number of active fishing licenses was approximately 314,000 in 2019. A like number of participants is expected in 2020. This generates approximately \$6,794,800 for the agency, all of which accrues to the wildlife fee fund, and is paid by user fees. Additionally, each individually identifiable angler (314,000) goes 8 days afield per year and spends approximately \$933 per year, generating \$292,962,000 for the Kansas economy, based on economic studies provided by the USFWS.

Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? If applicable, document when the public hearing was held, those in attendance, and any pertinent information from the hearing.
