This is a revision of a permanent regulation and contains revisions needed because of HB 2066, that has an implementation date of 7/1/2021. This regulation change includes language for issuing licensure to a military service member, military spouse and an individual who has established or intends to establish residence in Kansas. It also covers revocation or suspension of these individuals.

This is not mandated by the federal government.

The implementation cost to the Kansas Board of Nursing will be <\$2,000. This covers the cost of revising our applications to include the questions about military service member or military spouse. We will need to determine which single state applicants qualify for this.

C. Businesses that would be directly affected by the proposed rule and regulation;

I. Brief description of the proposed rule(s) and regulation(s).

This a permanent regulation and contains revisions needed because of HB 2066, that has an implementation date of 7/1/2021. This permanent regulation change includes language for issuing single state licensure to a military service member, military spouse and an individual who has established or intends to establish residence in Kansas. It also covers revocation or suspension of these individuals.

II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. (If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)

This is not mandated by the federal government.

III. Agency analysis specifically addressing following:

A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;

Single state licenses will be issued in an expedited manner, so it should enhance the ability for the nurse to start work earlier.

B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;

The implementation cost to the Kansas Board of Nursing will be <\$2,000. This covers the cost of revising our applications to include the questions about military service member or military spouse. We will need to determine which single state applicants qualify for this.

C. Businesses that would be directly affected by the proposed rule and regulation;
