

HOW TO USE THIS SPREADSHEET

This table is designed to be a “road map” to the provisions of each section of the Conference Committee Report for HB 2104. The information is presented section-by-section, and the sections are in numerical order. If a section contains anything relevant to a column heading, this table will summarize the provision(s). Columns reflecting current law are provided for reference.

Please note the bill addresses many different units of local government, and each local government unit is addressed in more than one section of the bill. The sections relating to each unit can be nonconsecutive. The provisions relating to cities, for example, are addressed in several nonconsecutive bill sections.

Likewise, the bill addresses several topics relating to the conversion of spring elections to the fall. The same principle described for local government units applies to topics—that is, each topic is addressed in numerous, likely nonconsecutive, sections of the bill. Cross-references are provided to other bills, when applicable.

This spreadsheet does not summarize (a) stricken language for home rule and uniformity purposes; and (b) statutes repealed and not replaced, also for home rule and uniformity purposes.
