## **AGRICULTURE AND NATURAL RESOURCES**

### **Alternative Crop Research Act; SB 263**

**SB 263** enacts the Alternative Crop Research Act (Act), which allows the Kansas Department of Agriculture (KDA), either alone or in coordination with a state institution of higher education, to grow and cultivate industrial hemp and promote the research and development of industrial hemp, in accordance with federal law. The bill allows individuals to participate in the research program under the authority of the KDA. Nothing in the Act is to be construed to authorize any person to violate state or federal law.

#### ***Research and Development; Pilot Program***

Research and development of industrial hemp, under the provisions of the bill, means such things as analysis of industrial hemp growth, including required soils, growing conditions, and harvest methods; research on seeds most suitable for Kansas; and market analysis to determine the potential for an industrial hemp market in Kansas.

The bill authorizes the KDA to establish a pilot program in Russell County, and other counties determined by the KDA, for the purpose of economic development, research, cultivation, market analysis, manufacturing, and transportation of industrial hemp and industrial hemp products.

#### ***Advisory Board***

If the KDA acts without coordination with a state institution of higher learning to cultivate industrial hemp grown from certified seed and to promote the research and development of industrial hemp, the Secretary of Agriculture (Secretary) is required to establish an advisory board within the KDA to review and recommend applications for pilot projects and research proposals to the Secretary. The Secretary is prohibited from approving any project or proposal without the recommendation of the advisory board.

#### ***Licensure and Fees***

The KDA is required to annually license program participants and maintain oversight of all industrial hemp activities, including cultivation, growth, research, oversight, study, analysis, transportation, processing, or distribution of certified seed or industrial hemp pursuant to the Act.

In addition, the KDA is authorized to establish fees for licenses, license renewals, and other necessary expenses to defray the cost of implementing and operating the Act in the state on an ongoing basis. Licensing and renewal fees will be established by rules and regulations adopted by the Secretary under the Act.

The KDA will require all license holders to be fingerprinted and undergo a state and national criminal history check at the license holder's expense. The KDA is authorized to submit the fingerprints to the Kansas Bureau of Investigation (KBI), and the KBI is able to charge a reasonable fee for conducting a criminal history record check. The KDA shall not issue licenses to individuals who have been convicted of felonies involving controlled substances.

### ***Fee Fund***

The bill creates the Alternative Crop Research Act Licensing Fee Fund (Fund) in the State Treasury, which is to be administered by the Secretary. Moneys received from fees will be deposited in the State Treasury and will be credited to the Fund. All expenditures from the Fund will be made in accordance with appropriation acts upon warrants of the Director of Accounts and Reports issued pursuant to vouchers signed by the Secretary or the Secretary's designee.

### ***Rules and Regulations***

The bill requires the KDA to promulgate rules and regulations by December 31, 2018, to carry out the provisions of the Act.

The rules and regulations of the KDA shall include, but not be limited to, a requirement that license holders keep in their possession at all times the license that they are engaged in cultivation, growth, research, oversight, study, analysis, transportation, processing, or distribution of certified seed or industrial hemp pursuant to the Act.

### ***Report***

The bill requires the KDA to report to the Senate Committee on Agriculture and Natural Resources and the House Committee on Agriculture by January 14, 2019, on the process by which the KDA will allow program participants to grow and process industrial hemp in Kansas and then sell it outside of Kansas. In addition, the KDA is required to send each committee an annual supplemental report on the continued progress on the process at the beginning of each regular legislative session for the next three years.

### ***Legislative Review***

The bill requires the Legislature to review the provisions of the Act prior to July 1, 2022.

### ***Other Provisions***

The bill amends KSA 2017 Supp. 21-5701, dealing with criminal law, excluding "industrial hemp" from the definition of "marijuana," when cultivated, possessed, or used for activities authorized by the Act.

The bill also amends KSA 2017 Supp. 65-4101, dealing with controlled substances, clarifying the definition of "marijuana" to exclude "industrial hemp" as defined in the bill, when cultivated, possessed, or used for activities authorized by the Act.

In addition, the bill amends KSA 2017 Supp. 65-4105, dealing with controlled substances included in schedule I, excluding tetrahydrocannabinols (THC) obtained from industrial hemp as it is defined in the bill, when cultivated, possessed, or used for activities authorized by the Act.

### ***Effective Date***

The bill takes effect upon publication in the *Kansas Register*.

## **Pet Animal Act; HB 2477**

**HB 2477** makes several changes to the Kansas Pet Animal Act (Act) pertaining to licensure of those providing temporary care of dogs or cats, maximum license fees, notice of inspections, requested inspections, no-contact inspections, failed inspections, and license renewal dates.

### ***Temporary Care of Dogs and Cats***

The bill prohibits the Kansas Department of Agriculture from requiring the license of any individual who has written and signed an agreement to provide temporary care for one or more dogs or cats owned by an animal shelter licensed pursuant to the Act.

The bill requires animal shelters to keep a current list of individuals who have written and signed an agreement to provide temporary care.

### ***Fee Maximums***

The bill adjusts the maximum fees that may be prescribed by the Commissioner of Animal Health (Commissioner) for the license categories found in the Act. The actual fees charged will be set under rules and regulations adopted by the Secretary of Agriculture, the authority for which is current law. The adjustments to fee maximums are as follows:

- Fee maximums for animal distributors and breeders licensed under federal law (U.S. Department of Agriculture) increase from \$200 to \$450; and
- Fee maximums for research facilities and pet shops increase from \$405 to \$600.

In addition, the bill removes the license fee for an animal shelter or a pound and creates three new license fee categories for shelters in cities of the first, second, and third class. The new license fee categories and registration fee amounts are:

- Animal shelter, city of the first class: an amount not to exceed \$400;
- Animal shelter, city of the second class: an amount not to exceed \$335;
- Animal shelter, city of the third class: an amount not to exceed \$285; and
- Hobby breeder: an amount not to exceed \$250.

For premises that require more than one license under the conditions of the Act, the bill requires the premises pay for the most expensive license and a \$50 fee for each additional license.

A late fee of \$70 is assessed when a permit or license is not renewed prior to October 1. Currently, a late fee of \$70 is assessed if a license or permit renewal is more than 45 days late.

## ***Inspections***

### *Notice of Inspections*

The bill requires that no notice be given to any person prior to an inspection. Current law states notice “need not be given prior to inspection.”

### *Requested Inspections*

The bill allows the Commissioner to charge a fee of \$200 to cover the cost of an inspection requested by a licensee, permittee, or applicant for a license or permit of their premises.

### *No-contact Inspections*

The bill also establishes fees for no-contact inspections. Each no-contact inspection results in a \$200 no-contact fee for the owner of the premises, the licensee, or other permittee. The Commissioner, or the Commissioner’s authorized representative, is required to make a second or subsequent attempt to inspect the premises.

A no-contact inspection is defined as the failure by the owner of the premises, a licensee or a permittee, or the designated representative to make a premises available for inspection within 30 minutes of the arrival of the inspector or the inspector’s authorized representative.

### *Failed Inspections*

The bill requires a \$200 re-inspection fee for any subsequent re-inspection be paid by the premises’ owner, licensee, or permittee that has failed an inspection. The payment must be made prior to the re-inspection of the premises. Failure to pay the re-inspection fee results in the revocation of the licensee’s or permittee’s license or permit. The owner of the premises is then required to reapply for any revoked licenses or permits and complete the following:

- Pay the fee for the new permit or license application;
- Pass an initial inspection; and
- Pay any past due fees.

## ***License Renewals***

The bill changes the definition of “license or permit year” to mean the 12-month period ending on September 30. The current license year ends on June 30. The following licensees’ license periods change to end on September 30:

- Animal breeder;

- Animal distributor;
- Boarding or training kennel;
- Hobby breeder;
- Pet shop operator;
- Pound or animal shelter;
- Out-of-state distributor;
- Research facility; and
- Retail breeder.

***Effective Date***

The bill takes effect upon publication in the *Kansas Register*.

## **CORRECTIONS AND JUVENILE JUSTICE**

### **Juvenile Justice; Detention Hearings; Dispositional Hearings; Tolling of Probation Term and Case Length Limits; Oversight Committee Duties; HB 2454**

**HB 2454** amends various statutes related to juvenile offenders.

#### ***Detention Hearings***

The bill amends the statute in the Revised Kansas Juvenile Justice Code (Code) governing detention hearings to expand the permitted use of two-way electronic audio-visual communication between the juvenile and the judge from detention hearings only to all hearings under the section, including the detention review hearings required every 14 days while the juvenile is in detention. The bill further amends law related to detention review hearings by adding a provision stating such hearings are not required for a juvenile offender held in detention awaiting case disposition. The bill amends the Code statute governing post-adjudication orders and hearings to require, if a juvenile offender is being held in detention, that a dispositional hearing for sentencing take place within 45 days after the juvenile has been adjudicated.

#### ***Tolling of Probation Term and Case Length Limits***

The bill amends the statute governing probation term limits and overall case length limits in the Code to clarify that when such limits are tolled due to the offender absconding from supervision while on probation, the limits shall not begin to run again until the offender is located and brought back to the jurisdiction. The bill also clarifies, if the juvenile fails to appear for the dispositional hearing, such limits shall not apply until the juvenile is brought before the court for disposition.

#### ***Duties of Oversight Committee***

The bill amends one of the statutory duties of the Kansas Juvenile Justice Oversight Committee (Juvenile Oversight Committee) to require the Juvenile Oversight Committee to “monitor,” rather than “calculate,” any state expenditures that have been avoided by reductions in the number of youth placed in out-of-home placements. A corresponding requirement that a summary of such averted costs be included in the Juvenile Oversight Committee’s annual report is changed from “calculated by the committee” to “determined.”

## CRIMES AND CRIMINAL MATTERS

### Criminal Use of Weapons; HB 2145

**HB 2145** amends the definition of “criminal use of weapons” by adding possession of a firearm by any of the following:

- Fugitives from justice;
- Aliens illegally or unlawfully in the United States;
- Persons convicted of a misdemeanor for a domestic violence offense within the past five years; and
- Persons subject to court orders restraining them from harassing, stalking, or threatening an intimate partner, child, or child of an intimate partner.

The bill also adds “throwing star” to the definition of criminal use of weapons by knowingly possessing with intent to use the same unlawfully against another, and removes “throwing star” from the definition of criminal use of weapons by knowingly selling, manufacturing, purchasing, or possessing certain items.

In addition, the bill clarifies that possession of a device or attachment designed, used, or intended for use in suppressing the report of any firearm will be exempt from the definition of “criminal use of weapons” if the device or attachment satisfies the description of a Kansas-made firearm accessory in current law. The provisions of this exemption apply to any violation of law pertaining to “criminal use of weapons” that occurred on or after April 25, 2013.

The bill specifies requirements for the issuance of court orders, after which the individual named in the order will be guilty of criminal use of weapons. The bill requires such court order to:

- Be issued after a noticed hearing where the individual had an opportunity to participate; and
- Include findings that such person is a credible threat to the safety of an intimate partner or child; or
- Explicitly prohibit the attempted, threatened, or actual use of physical force against an intimate partner or child that would reasonably be expected to cause bodily injury.

The bill defines “domestic violence,” “fugitive from justice,” and “intimate partner.”

The bill takes effect upon publication in the *Kansas Register*.

**Child Care Criminal Background and Fingerprinting Fund; Additional Prohibited Crimes;  
HB 2639**

**HB 2639** requires local and state law enforcement officers and agencies to assist the Secretary of Health and Environment (Secretary) in taking and processing fingerprints of persons residing, working, or regularly volunteering in a child care facility and to release all records of adult convictions and nonconvictions and adult convictions or adjudications of another state or country to the Kansas Department of Health and Environment (KDHE). KDHE is required to adopt rules and regulations, by January 1, 2019, to fix a fee for fingerprinting such persons as required to reimburse KDHE for the cost of fingerprinting. The bill creates the Child Care Criminal Background and Fingerprinting Fund (Fund) in the State Treasury to be administered by the Secretary. All fingerprinting fees collected are to be deposited in the Fund for use in paying local and state law enforcement officers and agencies for the processing of fingerprints and criminal history background checks for KDHE.

The bill also updates the list of sex-related crimes that prohibit a person from residing, working, or regularly volunteering in a child care facility to include the crimes of commercial sexual exploitation of a child and the unlawful use of electronic means to commit human trafficking, commercial sexual exploitation of a child, and similar offenses.

## EDUCATION

### **K-12 School Finance; Amendments to the Kansas School Equity and Enhancement Act; Sub. for SB 423**

**Sub. for SB 423** makes appropriations to the Kansas State Department of Education (KSDE) for FY 2019. This bill also creates a new pilot program for the Mental Health Intervention Team between school districts and community mental health centers (CMHCs). In addition, the bill makes several amendments to the Kansas School Equity and Enhancement Act (KSEEA), including amendments to the Base Aid for Student Excellence (BASE), preschool-aged at-risk students, the Local Option Budget (LOB), various weightings in the school finance formula, the State Board of Education's (KSBE) accreditation system, school district funding requirements, and the schedule for audits to be completed by the Legislative Division of Post Audit (LPA). The bill also amends statutes relating to capital outlay funds and school district capital improvements.

#### ***Introductory Statement***

The bill includes an introductory statement stating the State's educational interests concern the areas of social-emotional learning, kindergarten readiness, individual plans of study, graduation, and post secondary success, and the State addresses such interests by providing support and services both in the classroom and in the community. Further, the introductory statement summarizes appropriations for K-12 education, as well as appropriations for support services provided by other state agencies and institutions for students from birth to graduation.

#### ***FY 2019 Appropriations***

The bill appropriates \$26.0 million, all from the State General Fund (SGF), for increased State Foundation Aid payments. The bill also appropriates \$32.4 million for increased Special Education Services Aid payments and \$6.0 million for increased Supplemental State Aid (LOB State Aid) payments, all from the SGF.

The bill appropriates \$2.8 million, all from the SGF, to provide the ACT and three ACT WorkKeys assessments required to earn a national career readiness certificate to each student enrolled in grades 9-12. No such student is required to pay any fees or costs, and no school district is required to provide more than one exam and three assessments per student. Further, the bill appropriates \$500,000 for the mentor teacher program, all from the SGF.

The bill appropriates \$10.0 million, all from the SGF, for the first year of a Mental Health Intervention Team pilot program between school districts and CMHCs for FY 2019, including \$7.5 million for the operation of the pilot program and \$2.5 million for the one-time purchase of a database. Upon the certification of memorandums of understanding between participating school districts and CMHCs, the bill requires the transfer of \$1.5 million from KSDE to the Kansas Department for Aging and Disability Services (KDADS) to provide treatment and services for students under the pilot program who are uninsured or underinsured.

The bill appropriates \$15,000, all from the SGF, to implement the Jobs for America's Graduates–Kansas (JAG-K) pilot program for foster children in the Wichita school district (USD 259), the Topeka school district (USD 501), and the Kansas City school district (USD 500).

***Mental Health Intervention Team Pilot Program***

The bill creates the Mental Health Intervention Team pilot program between participating school districts and CMHCs for FY 2019. School districts will enter into memorandums of understanding with participating CMHCs and the appropriate state agencies. The mental health intervention teams will be composed of school liaisons employed by the school district, and clinical therapists and case managers employed by the CMHC.

The following will participate in the program:

- Twenty-three schools in the Wichita school district (USD 259);
- Twenty-eight schools in the Topeka school district (USD 501);
- Ten schools in the Kansas City school district (USD 500);
- Five schools in the Parsons school district (USD 503);
- Four schools in the Garden City school district (USD 457); and
- Nine schools served by the Central Kansas Cooperative in Education.

The bill requires the Director of the Division of Health Care Finance of the Kansas Department of Health and Environment to certify to the Director of the Budget and the Director of Legislative Research the aggregate amount of expenditures for FY 2019 for treatment provided to students under the pilot program, or provided based on a referral from such program.

***Base Aid for Student Excellence***

The bill amends the BASE for five years beginning in school year 2018-2019. The new BASE amounts are:

- School year 2018-2019, \$4,900;
- School year 2019-2020, \$5,061;
- School year 2020-2021, \$5,222;
- School year 2021-2022, \$5,384; and
- School year 2022-2023, \$5,545.

Beginning in school year 2023-2024, the BASE will increase by the average percentage increase in the Consumer Price Index for all urban consumers in the Midwest region during the three immediately preceding school years. SB 19 (2017) provided for inflationary increases beginning in school year 2019-2020.

### ***Preschool-Aged At-Risk***

The bill amends the definition of “preschool-aged at-risk student” to allow districts to expand their programs to include three-year-old children.

### ***Local Option Budget***

#### *Use of LOB*

The bill requires each school district to adopt an LOB equal to 15.0 percent of the school district’s Total Foundation Aid. The amount, along with the LOB State Aid attributable to that required LOB, will be included in a district’s Local Foundation Aid. The required LOB dollars will be included in the BASE amount, and the bill revises the BASE to reflect this increase.

Beyond the required LOB amount, school districts may adopt an LOB up to 27.5 percent of a district’s Total Foundation Aid on the action of local school boards. The maximum LOB amount a school district may adopt is 30.5 percent of Total Foundation Aid, which is subject to a protest petition.

The Total Foundation Aid amount used for LOB purposes divides the total Special Education Services Aid received by a school district by 85.0 percent of the BASE. The resulting quotient is then used to calculate a school district’s Total Foundation Aid.

Further, the bill requires school districts to transfer from the LOB an amount proportional to the amounts of its Total Foundation Aid attributable to the at-risk and bilingual weightings to their at-risk and bilingual funds.

#### *LOB Authority*

The bill voids any resolution providing LOB authority in excess of 30.0 percent that was adopted by a local school board prior to July 1, 2017, under the provisions of the Classroom Learning Assuring Student Success Act and not submitted to the electors of the school district for approval. Any school district affected by this provision will be required to adopt a new resolution subject to protest petition to adopt an LOB above 27.5 percent.

The bill increases the protest petition requirements to challenge an LOB increase above 27.5 percent from 5.0 percent of a school district’s qualified voters in 30 days to 10.0 percent of voters in 40 days.

The bill requires any school board seeking to raise its LOB authority for the succeeding school year to notify KSBE of the intended percentage increase in its LOB authority by April 1 of the current school year. School boards are prohibited from adopting an LOB in excess of the authority stated in its notice submitted to KSBE. KSBE is required to submit all such notifications to the Legislature. The notification requirement takes effect for any planned increases in LOB authority during school year 2019-2020.

### *LOB State Aid*

The bill changes the process for calculating LOB State Aid from a school district's LOB for the immediately preceding school year to a school district's current-year LOB.

### **Formula Weightings**

#### *Transportation Weighting*

The bill amends the transportation weighting in the KSEEA. The transportation weighting will be calculated based on a per capita allowance based on a school district's density figure, which is the area of a school district in square miles divided by the number of transported students. The bill also provides for a statutory minimum level of transportation funding; provides for per capita allowances based on a cost factor of 5.0 for students more than 2.5 miles away from their school (prior law provided for a cost factor of 2.8); and limits the proportion of a school district's State Foundation Aid attributable to the transportation weighting to being no more than 110.0 percent of a school district's total transportation expenditures for the immediately preceding school year.

#### *At-Risk and Other Weightings*

The bill removes language that provides for a 10.0 percent minimum for the at-risk student weighting. The bill also delays to July 1, 2020, the sunset on the provision in the high-density at-risk weighting that allows for calculation of the weighting at the school-building level.

The bill changes the use of the preceding year's data to use of the current year's data for the bilingual and career and technical education (CTE) weightings and repeals the July 1, 2019, sunset for the CTE weighting.

### **KSBE Accreditation System**

The bill requires KSBE to establish rigorous accountability measures in the areas of social-emotional learning, kindergarten readiness, individual plans of study, graduation, and postsecondary success. The bill requires such accountability measures to be applied at the school district level and the school building level, and both KSBE and local school boards are required to publish such accountability measures on their websites.

The bill also requires any corrective action plan required by KSBE for a school district not meeting accreditation requirements, and any subsequent reports regarding the implementation of such a corrective action plan, to be published on the websites of KSDE and such school district. In addition, the bill requires the superintendent, or the superintendent's designee, of any school district not meeting accreditation requirements to appear before the House Committee on Education and the Senate Committee on Education during the same school year in which the school district is not accredited. Such school district is required to provide a report to the House and Senate education committees on the challenges to the district regaining accreditation.

### ***School District Funding Reporting Requirements***

The bill requires KSDE to include the following in the annual school district funding reports:

- Expenditures and fund transfers from the LOB for the following:
  - At-risk education programs and services;
  - Preschool-aged at-risk education programs and services;
  - Bilingual education programs and services;
  - CTE programs and services;
  - Special education and related services; and
  - Virtual school programs and services; and
- Each school district's total bonded indebtedness.

### ***Performance Audit Schedule—Legislative Post Audit***

The bill makes several changes to the schedule for the performance audits to be completed by LPA. The new schedule is:

- FY 2019, special education and related services;
- FY 2020, at-risk education funding;
- FY 2021, cost-function analysis of statewide education performance;
- FY 2022, bilingual education funding;
- FY 2023, virtual school programs; and
- FY 2024, cost-function analysis of statewide education performance.

The bill removes from the schedule a cost-function analysis that was to be performed in 2019. The remaining cost-function analyses will not include special education and related services. The bill also removes two performance audits to identify best practices in successful schools that were to be performed in 2021 and 2026.

### ***Use of Capital Outlay Funds***

The bill eliminates the provision of current law that allows school districts to expend capital outlay funds on utilities and property and casualty insurance.

### ***School District Capital Improvements***

The bill amends current provisions that allow KSBE to approve an application for a bond election only if approval does not result in the aggregate amount of all general obligation bonds approved by the KSBE for such school year exceeding the aggregate principal amount of bonds retired by districts in the state in the preceding year (aggregate principal amount). The bill provides that for an application in excess of \$175.0 million, KSBE will apply an amount of \$175.0 million when determining whether the aggregate principal amount has been exceeded. Additionally, commencing in school year 2017-2018, KSBE is required to determine the aggregate principal amount by adjusting the aggregate principal amount by the five-year compounded producer price index industry data for new school buildings as reported by the Bureau of Labor Statistics.

### ***Effective Dates***

The bill takes effect upon publication in the *Kansas Register*. However, all provisions other than the use of current year data for the bilingual and CTE weighting will be effective on and after July 1, 2018.

### **Legislative Task Force on Dyslexia; Sub. for HB 2602**

**Sub. for HB 2602** establishes the Legislative Task Force on Dyslexia (Task Force), which will advise and make recommendations to the Governor, Legislature, and the Kansas State Board of Education (KSBE) regarding matters concerning the use of evidence-based practices for students with dyslexia. Recommendations and resource materials must:

- Research and recommend evidence-based reading practices to address dyslexia or characteristics of dyslexia for use by schools;

- Study and examine current state and federal law, rules and regulations, and the implementation of such laws and rules and regulations that affect students with dyslexia; and
- Identify valid and reliable screening and evaluation assessments and protocols that can be used, as well as the appropriate personnel to administer such assessments, in order to identify children with reading difficulties, such as dyslexia or the characteristics of dyslexia.

The Task Force will be composed of the following 16 voting members:

- One Senate member and one elementary school classroom teacher appointed jointly by the chairperson and ranking minority member of the Senate Committee on Education;

- One licensed attorney familiar with dyslexia appointed jointly by the chairpersons of the House Committee on Education and Senate Committee on Education; and
- One member appointed by the Disability Rights Center of Kansas.

The Task Force chairperson will call an organizational meeting of the Task Force on or before July 15, 2018. At such organizational meeting, members will elect a vice-chairperson from the membership of the Task Force and consider dates for future meetings, the agendas for such meetings, and the need for electing a facilitator to assist in discussions. The Task Force is

#### ***Definition of Lobbying [Sections 1 and 2]***

The bill includes promoting or opposing any action or inaction of any executive agency on any executive administrative matter or judicial agency on any judicial administrative matter to the definition of lobbying.

#### ***Exemptions from Lobbying Definition [Section 2]***

The following are exempted from the definition of lobbying:

### ***Lobbyist Reporting and Registration Requirements [Sections 5-7]***

#### ***Authorization and Notice of Expulsion***

The bill authorizes the president, general manager, or any other credit union employee designated by the board of directors to expel a credit union member from the credit union under certain circumstances. The bill specifies a member can be expelled for failure to comply with the credit union's adopted policy regarding expulsion. The bill requires the president or general manager to report such expulsion at the next regularly scheduled board meeting.

Additionally, the bill eliminates the requirement that the board of directors provide notice to the member not less than 30 days prior to the effective date of the member's expulsion from the credit union. The bill also eliminates the appeals process before the credit union membership. The bill instead requires the expelled member to be informed of the reason for expulsion, and the expelled member is permitted to appeal the expulsion to the board of directors within 30 days of the expulsion.

#### ***Credit Union Council—Terms of Service***

The bill specifies a Council member cannot serve more than two consecutive full three-year terms. The bill requires the Governor, in the event of vacancy on the Council, to appoint a new member to fill the unexpired term, but this mid-term appointment of a new Council member is not considered a full term for purposes of the two-term limit. The bill also deletes language relating to the original appointment of Council members.

The bill takes effect upon publication in the *Kansas Register*.

### **Captive Insurance Act; Regulation of Captive Insurance Companies; SB 410**

### ***Captive Insurance Companies***

#### *Definitions Under the Act [Section 36]*

The bill amends the definition of “captive insurance company” to mean any pure captive insurance company or association captive insurance company; for purposes of the Act, a branch captive insurance company is a pure captive insurance company with respect to operations in Kansas, unless otherwise permitted by the Commissioner of Insurance (Commissioner) of the Kansas Insurance Department (Department).

The bill sets the renewal fee for each year thereafter at \$10,000. [Note: Current law specifies the initial application fee to be \$500 and the renewal fee to be \$110.] The bill states each captive insurance company already in existence on

January 1, 2018, will pay an annual renewal fee of \$110 until January 1, 2028, after which the fee increases to \$10,000.

Additionally, the bill changes the end date of each year of the certificate of authority to March 1 and specifies confidential treatment for materials submitted to the Commissioner and exceptions for disclosure.

The bill also states the time line for the examiner to file a verified written report of examination with the Department, specifies transmission of the report to the examined company and provides opportunity for rebuttal, provides the circumstances for the Commissioner to enter an order and discuss the requirements for all orders, describes the terms of privacy and confidentiality for such reports, and specifies the bill does not limit the Commissioner's authority to terminate or suspend any examination to pursue other legal or regulatory action pursuant to Kansas insurance laws.

Additionally, the bill specifies confidential treatment of documents, access of information, and provides a sunset of July 1, 2023, for confidentiality of certain documents unless the Legislature reviews and reenacts the provision.

*Suspension or Revocation of the Certificate of Authority [Section 43]*

The bill specifies additional reasons why the certificate of authority of a captive insurance company can be suspended or revoked. These reasons include the captive insurance company is financially impaired, insolvent, or otherwise deemed to be in a hazardous financial condition; failure to comply with the provisions of its organizational documents; and failure to pay any tax or fee or submit to pay the cost of an examination or any legal obligation.

Further, the bill requires a procedure for notice and hearing before the captive insurance company's suspension or revocation of the certificate of authority; requires the delivery of the suspended, revoked, or terminated certificate to the Commissioner; specifies the period of time for suspension; and prohibits the captive insurance company from soliciting or writing new business during the suspension period, but the company will still be required to file annual statements, pay fees and taxes, and service its business already in force.

*Investments [Section 44]*

The bill amends law related to allowable investments and limitations on such investment. *Applicability of Law Related to Insurance Holding Companies and Impaired or Insolvent Insurers [Section 49]*

The bill specifies provisions related to insurance holding companies continue to apply to insurers, as applicable, and provisions related to impaired or insolvent insurers apply to captive insurance companies.

*Rules and Regulations [New Section 2]*

The bill permits the Commissioner to adopt rules and regulations establishing standards to ensure a pure captive insurance company's parent or any of its affiliated companies is able to exercise control of the risk management function of any controlled unaffiliated business to be insured by the pure captive insurance company. However, the Commissioner may approve the coverage of risks by a pure captive insurance company on a case-by-case basis until such time as rules and regulations are adopted.

*Prior Approval Required for Certain Acts [New Section 3]*

The bill specifies certain acts cannot be taken regarding a captive insurance company without the prior approval of the Commissioner. These acts include dissolution; sale, exchange,

A violation of this section will be grounds for suspension, refusal, or non-renewal of a certificate of authority held by the captive insurance company. The bill specifies any proceeding for suspension, refusal, or revocation will be made in accordance with the Kansas Administrative Procedure Act (KAPA).

*Captive Insurance Regulatory and Supervision Fund [New Section 5]*

The bill creates the Captive Insurance Regulatory and Supervision Fund (Fund) within the State Treasury, to be administered by the Commissioner. The bill specifies the process for receipt, remittance, and deposit of fees in the State Treasury to the credit of the Fund.

The bill further specifies all expenditures from the Fund will be made in accordance with appropriation acts upon warrants of the Director of Accounts and Reports issued pursuant to vouchers approved by the Commissioner. A certificate will be revoked if the dormant captive no longer meets this criteria.

A captive insurance company domiciled in Kansas meeting the aforementioned criteria may apply to the Commissioner for a certificate of dormancy. The certificate is subject to

renewal every five years. The bill requires a dormant captive that has been issued a certificate of dormancy to possess and maintain unimpaired, paid-in capital and surplus of not less than \$25,000, submit to the Commissioner a report on its financial condition prior to March 15 of each year, and pay a \$500 license renewal fee.

- Reserves on such insurance policies or reinsurance contracts as may be issued or assumed by the branch captive through its branch operations, including reserves for losses, allocated loss adjustment expenses, incurred but not reported losses, and unearned premiums with regard to business written through the branch operations, unless the Commissioner permits a branch captive to credit against reserve equipment under KSA 40-221a.

The bill specifies the form of holding for such security and authorizes the Commissioner to issue an order exempting a branch captive from any or all of these requirements, provided the Commissioner finds satisfactory evidence of the branch captive's financial stability.

*Captive Insurance Company Authorized as Branch Captive [New Section 11]*

*Examination of a Branch Captive [New Section 13]*

The bill states the examination of a branch captive will be of the branch business and branch operations only, as long as the branch captive insurance company provides an annual certificate of compliance to the Commissioner or its equivalent and demonstrates it is operating in sound financial condition. Further, a branch captive is required to grant authority to the Commissioner for examination of affairs of a branch captive in a specified jurisdiction, as a condition of the issuance of a certificate of authority, and all reports will be given confidential treatment.

The bill also permits a special captive to apply to the Commissioner for a certificate of authority to conduct reinsurance and describes reinsurance and ceded reinsurance agreements.

These requirements include filing an application, including certain documents, descriptions, statements, and affidavits; depositing specified securities with the Commissioner; demonstrating the minimum surplus required is established and held in Kansas; providing copies of any filings made by the ceding company with the ceding company’s domiciliary insurance regulator and any letters of approval or disapproval received from the insurance regulator (but this requirement does not apply to a ceding company that is not required to make filings with its domiciliary insurance regulator, provided the applicant provides certification of such); revising plan of operation and meeting requirements imposed by a revised plan of operation, as may be required by the Commissioner; and paying a nonrefundable application fee of \$10,000.

Further, the bill specifies the time line for the Department to act on the completed application and states a certificate of authority under this section continues until March 1 of each year and is renewable at the discretion of the Commissioner.

*Requirements of a Plan of Operation [New Section 18]*

The bill requires a special captive to file a plan of operation as part of its application. The plan of operation includes a description of the contemplated financing transaction and a detailed description of transaction documents to which the special captive is a party, including the special captive contract, and specifies other required documents, including *pro forma* balance sheets.

The bill specifies *pro forma* balance sheets and income statements filed must be updated by the special captive and filed with the Commissioner in the event of material deviation from the original or most recently filed plan of operation. The plan of operation must specify which deviations are to be considered material and any other documents or descriptions the Commissioner deems appropriate to explain such material deviation.

*Findings by the Commissioner Prior to Issuing a Certificate of Authority to a Special Captive [New Section 19]*

The bill describes the required findings of the Commissioner before approving an application and issuing a certificate of authority to a special captive. The Commissioner will be required to find the proposed plan of operation provides a reasonable and expected successful operation, the terms of the transactions proposed in the plan of operation to which the special captive is a party comply with the Act, and the Commissioner of the domiciliary state of each ceding company has notified the Commissioner in writing or the applicant has provided satisfactory assurance to the Commissioner that the regulator has approved or granted a disapproval of the special captive contract. The bill also specifies considerations by the Commissioner in evaluating the expectation of a successful operation of a special captive.

*Incorporation or Formation [New Section 20]*

The bill permits a special captive to be incorporated as a stock insurer or nonstock corporation, or formed as a limited liability company, partnership, or limited partnership.

*Activities, Name, Number of Incorporators, and Capital Stock [New Section 21]*

*Entering into a Contract with a Ceding Company [New Section 22]*

The bill specifies the requirements for a special captive to enter into a special captive contract with a ceding company. The special captive must have been granted a certificate of authority to transact business as a special captive, and the special captive must provide the Commissioner with approval or disapproval from the ceding company's regulatory official, but provides an alternative if the ceding company's regulatory official does not customarily provide evidence of such approval or disapproval.

*Securities and Surplus Notes [New Section 23]*

The bill authorizes a special captive to issue approved securities, subject to and in accordance with applicable law, the approved plan of operation, and organizational documents. Further, the special captive is permitted to enter into and perform all of its obligations under any required contract to facilitate the issuance of the securities.

Additionally, the bill authorizes the Commissioner to approve the use of surplus notes. If the Commissioner approves of such use, the special captive will be required to account for proceeds of surplus notes as a surplus and not a debt and submit, for prior approval of the Commissioner, periodic written requests for payments of interest on and repayments of principal of surplus notes. The bill notes the obligation to repay principal, interest, or both on the securities issued by the special captive is required to reflect the risk associated with the reinsurance obligations assumed by the special captive.

*Investment Management Agreement [New Section 24]*

The bill requires the special captive's assets to be managed in accordance with an investment management agreement filed with and approved by the Commissioner. The special captive is required to invest at least 90 percent of its assets in cash and securities that are investment grade at the time of acquisition. The balance may be invested in cash, securities, or other assets otherwise permitted in the Insurance Code.

*Recognition of Admitted Assets; Orders by the Commissioner [New Section 25]*

The bill specifies the admitted assets of the special captive must include permitted investments, proceeds from securitization (the term's definition is established in New Section 15), premium and other amounts payable by a ceding insurer to the special captive, and any other assets approved by the Commissioner. Additionally, with prior approval of the Commissioner, letters of credit and guarantees of a parent may be recognized as an admitted asset. The bill includes a method for the Commissioner to reduce the amount of admitted assets previously approved if the Commissioner has determined the value of those assets has decreased. Such method requires an order, time for remedy, notifications, a resolution period, and the special captive's right to an administrative hearing.

*Prohibitions [New Section 26]*

The bill prohibits a special captive from entering into a special captive contract with a person that is not authorized to transact insurance or reinsurance in at least its state or country of domicile, or to lend, invest, place assets, or borrow money or receive a loan, other than according to the plan of operation.

*Dividends and Distributions [New Section 27]*

The bill prohibits a special captive from declaring or paying dividends or distributions in any form to its owners other than in accordance with transaction agreements or the plan of operation. The bill specifies dividends and distributions cannot decrease the capital of the special captive below the minimum capital requirements; all dividends and distributions must be approved by the Commissioner; and declaration of dividends and distributions must be provided for by the management of the special captive under certain circumstances.

*Material Change to a Plan of Operation [New Section 28]*

The bill requires prior written approval of the Commissioner for any material changes to the plan of operation. The plan of operation is required to specify which deviations are considered material.

## TAXATION

### **Native American Veterans' Income Tax Refund; Sub. for HB 2147**

**Sub. for HB 2147** creates a process by which certain Native American military veterans may apply for a refund of state personal income taxes improperly withheld from such veteran's federal military income in the amount of income taxes paid plus interest.

#### ***Findings and Declarations***

The bill states the following findings and declarations:

- Native Americans have a long history of serving their country through active duty in the armed forces of the United States during periods of both war and peace and have made great sacrifices in fulfilling such duty;
- Native American veterans domiciled on their tribal lands during their periods of active military service may have been exempt from paying state income taxes on their military income, but may have had state income taxes improperly withheld from their military income; and
- Native American veterans are now barred by the statute of limitations from claiming refunds of state income taxes that may have been improperly withheld from their military income and, even if not barred by the statute of limitations, the passage of time extending to decades will make it difficult for many Native American veterans to meet strict standards of proof that such veterans are entitled to a refund of improperly withheld state income taxes.

#### ***Refund***

The bill provides that on and after October 1, 2018, any Native American veteran domiciled within the boundaries of tribal lands in Kansas during the period of active military duty from tax years 1977 through 2001, and who had Kansas personal income taxes withheld from the veteran's federal military income, may apply to receive a refund of such income tax. The refund is equal to the amount of the tax actually paid by the veteran, plus interest accrued during the period from the original due date of the return through September 30, 2018. No application for refund is allowed after June 30, 2020.

#### ***Eligible Applicants Other Than Veteran***

When a person eligible to receive a refund under this bill is deceased, the bill allows an application to be made on behalf of the estate of the deceased by a surviving spouse or by any heir-at-law.

#### ***Fund***

The Native American Veterans' Income Tax Fund (Fund) is created by the Director of Taxation (Director) within the Kansas Department of Revenue. The Fund comprises moneys

collected under the Kansas Income Tax Act in an amount determined by the Director as necessary to meet refund requirements provided by the bill. Any additional moneys required for the Fund are transferred from the State General Fund and reported to the State Treasurer.

### **Report**

On or before February 1, 2019, and February 1, 2020, the Secretary of Revenue is required to report to the House Committee on Veterans and Military, the House Committee on Appropriations, and the Senate Committee on Ways and Means how the provisions of the bill are being administered, including the number of claimants receiving refunds and moneys expended.

### **"Native American" Defined**

A Native American eligible to receive refunds under this bill is defined as a member of the Prairie Band Potawatomi Nation of Kansas, the Iowa Tribe of Kansas and Nebraska, the Kickapoo Tribe in Kansas, or the Sac and Fox Nation of Missouri in Kansas and Nebraska.

### **"Tribal Lands" Defined**

Persons eligible to receive refunds under this bill are defined as those domiciled within the following boundaries:

- *Iowa Tribe of Kansas and Nebraska.* Land as established by the treaty between the United States and the Tribe dated May 17, 1854, that is within the boundaries of the State of Kansas and does not include any land affected by the treaty between the United States and the Sauk and Foxes Tribes. No lands that have been or may be taken into trust by the United States may be included;
- *Kickapoo Tribe in Kansas.* Land granted in the treaty between the United States and the Tribe dated June 28, 1862;

## TRANSPORTATION AND MOTOR VEHICLES

### Vehicle Dealer Facilities, Performance Criteria, and Recall Repairs; SB 324

**SB 324** adds two sections to the Vehicle Dealers and Manufacturers Licensing Act (Act) on improvements to dealer facilities, dealer performance criteria, and recall repairs.

**Improvements to dealer facilities.** The bill prohibits a manufacturer (as defined in the bill) from coercing or requiring any vehicle dealer to construct improvements to facilities or install new signs that replace or substantially alter improvements or signs completed within the previous ten years that were required and approved by the manufacturer or one of its contractors or affiliates, notwithstanding the terms and conditions of any franchise agreement or related document. The ten-year period begins for a dealer, including that dealer's successor and assigns, when the manufacturer gives final written approval of the facility, improvements, or signs or the dealer receives a certificate of occupancy, whichever is later.

The bill prohibits a manufacturer from requiring a dealer to purchase goods or services for improvements from vendors selected, identified, or designated by the manufacturer without allowing the dealer to obtain goods or services of substantially similar kind, quality, and design from a vendor chosen by the dealer. The bill requires manufacturer approval of an alternate vendor and specifies approval by the manufacturer may not be unreasonably withheld. The option to choose an alternate vendor is not available if the manufacturer provides substantial reimbursement (as defined in the bill) for the goods or services. The bill specifies the term "goods" does not include moveable displays, brochures, and promotional materials containing material subject to the intellectual property rights of the manufacturer.

The bill states this section is not intended to prohibit a manufacturer from requiring changes or updates to signs more frequently than every ten years if the manufacturer offers the dealer compensation for the sign or pays for the sign if the sign changes are required more than every five years.

**Dealer performance criteria.** The bill prohibits a manufacturer from using criteria that are unfair, unreasonable, arbitrary, or inequitable or that do not consider local and state or regional criteria, data, and facts presented by the dealer in writing to evaluate any dealer's sales or service performance. The prohibited criteria cannot be used for purposes of canceling, terminating, or non-renewing a franchise agreement with a dealer or assigning the dealership to another person. The bill requires prevailing economic or other conditions affecting sales or service performance to be taken into account by the manufacturer and state relevant and material criteria, data, or facts include, but are not limited to, dealerships of comparable size in comparable markets, geographic and market characteristics in the new vehicle dealer's area, proximity to the motor vehicle manufacturing facilities, buying patterns and consumer preferences, and customer drive time and distance. If any performance measurement criteria are based in whole or in part on a survey, the bill requires the survey be based on a statistically significant and valid random sample or survey a majority of customers if the survey measures customer satisfaction.

**Recall repairs.** The bill requires a manufacturer to provide reasonable compensation to its new vehicle dealers for all labor and parts required to perform recall repairs. A manufacturer is required to compensate a dealer in one of two ways:

- At the prorated rate of at least 1.0 percent of the value of the vehicle per month if, after 30 days, parts or a remedy are not reasonably available to perform a recall service or repair on a used vehicle held for sale by a vehicle dealer authorized to sell and service the same line-make of new vehicles and the manufacturer has issued a stop-sale or do-not-drive order on the vehicle; the period ends the date the parts are made available or the date the dealer sells, trades, or otherwise disposes of the vehicle; or
- Under a national recall compensation program, provided the compensation under the program is equal to or greater than the compensation outlined above, or as the manufacturer and dealer otherwise agree.

The bill defines both stop-sale and do-not-drive orders. The recall repair provisions apply only to used vehicles subject to safety or emissions recalls that are held by dealers of new vehicles and only to vehicles in inventory when the order is issued or taken into inventory as a trade-in incident to new vehicle purchases after the order was issued.

The bill states it will be a violation of this section for a manufacturer to reduce compensation to a new vehicle dealer or otherwise retaliate solely because the dealer has made a claim for reimbursement under this section, but it excludes an action by a manufacturer applied uniformly among all dealers of the same line-make in the state.

The bill authorizes a manufacturer to direct the manner and method in which a dealer must demonstrate the inventory status of a vehicle affected by a stop-sale or do-not-drive order, provided the manner and method are not unduly burdensome or require information that is unduly burdensome to provide.

The bill states a manufacturer will not be required to provide total compensation to a dealer for any single unit that exceeds the total average trade-in value of the affected used vehicle.

The bill states any remedy provided under this section is exclusive and may not be combined with any other recall compensation remedy. Also, it will not supersede or otherwise replace provisions in continuing law regarding liability of manufacturers and distributors for defects in equipment.

The bill takes effect upon publication in the *Kansas Register*.

### **License Plates—Special Olympics, Choose Life, City of Wichita, Various Military Operations; HB 2599**

**HB 2599** authorizes the following distinctive license plates for issuance on and after January 1, 2019: Special Olympics, Choose Life, City of Wichita, veteran of the Korean War, veteran of Operation Desert Storm, veteran of Operation Iraqi Freedom, and veteran of Operation Enduring Freedom.

### ***Special Olympics License Plate***

The bill authorizes a Special Olympics license plate to be issued to the owner or lessee of a passenger vehicle or truck registered for a gross weight of 20,000 pounds or less. The bill allows any owner or lessee to apply for the new plate after paying annual vehicle registration fees and a logo use royalty fee of between \$25 and \$100 to the organization Special Olympics Kansas. Royalties will be deposited into the Special Olympics Kansas Royalty Fund, which the bill creates. Payments from the Special Olympics Kansas Royalty Fund will be made monthly to the appropriate designee of Special Olympics Kansas. Special Olympics Kansas will pay initial costs and work with the Director of Vehicles (Director), Department of Revenue, to design the plate.

### ***Choose Life License Plate***

The bill authorizes a Choose Life license plate to be issued to the owner or lessee of a passenger vehicle or truck registered for a gross weight of 20,000 pounds or less, a motorcycle, or a travel trailer. No logo use royalty fee is associated with this license plate. Provisions requiring a sponsoring organization to pay a nonrefundable amount to defray Division of Vehicles (Division) costs to develop a new license plate do not apply, but the Division will delay the manufacturing and issuance of this license plate until the Division has received at least 1,000 orders for such plate.

### ***City of Wichita License Plate***

The bill authorizes a City of Wichita license plate to be issued to the owner or lessee of a passenger vehicle or truck registered for a gross weight of 20,000 pounds or less. The bill allows any owner or lessee to apply for the new plate after paying annual vehicle registration fees and a logo use royalty fee of between \$25 and \$100 to the City of Wichita. The bill specifies any royalty payment received shall be used to support physical assets identified by the Wichita Parks Foundation (Foundation) and for license plate administrative costs incurred by the Foundation. Royalties will be deposited into the City of Wichita Royalty Fund, which the bill creates. Payments from the City of Wichita Royalty Fund will be made monthly to the appropriate designee of the City of Wichita. The City of Wichita will pay initial costs and work with the Director to design the plate. The City of Wichita will also be responsible for establishing a toll-free number applicants can call for information concerning the application process or the status of an application.

### ***License Plates for Veterans of Specified Military Operations***

The bill authorizes separate license plates for veterans of the following conflicts and military operations:

- The Korean War;
- Operation Desert Storm;
- Operation Iraqi Freedom; and
- Operation Enduring Freedom.

[*Note:* Continuing law provides additional license plates related to military service, e.g., Vietnam War veteran in KSA 2017 Supp. 8-1,163.]

For each of those four license plates, the bill authorizes one license plate to be issued to the owner or lessee of a passenger vehicle, a truck registered for a gross weight of 20,000 pounds or less, or a motorcycle if the owner or lessee submits satisfactory proof to the Director, in accordance with rules and regulations adopted by the Secretary of Revenue, that the person is a veteran of the military action for which the veteran is requesting a license plate. The bill also specifies application and registration requirements. No registration or distinctive plate issued under the bill will be transferable to any other person. In the event of the death of any person issued a distinctive license plate under the bill, the surviving spouse, or other family member if there is no surviving spouse, will be entitled to possess, but not display on a vehicle, the distinctive license plate.

The bill exempts these license plates from requirements for payment of a distinctive license plate fee by the veteran requesting the plate; the number of requests required before issuance; and payments to cover costs of the design, manufacture, and issuance of such plates.

### **Driver's Licenses—Motorcycle License, Online Renewal, and Renewal of Commercial Driver's License; HB 2606**

**HB 2606** amends law related to testing for a Class M (motorcycle) driver's license, online driver's license renewal, and the length of time a commercial driver's license is valid.

#### ***Class M Driver's License Testing***

The bill exempts applicants for Class M driver's licenses who have completed motorcycle safety training in accordance with the Motorcycle Safety Foundation (MSF) instruction from completing further written and driving testing by the Division of Vehicles (Division). The bill requires an applicant seeking exemption from the written and driving tests to provide a copy of the MSF completion form to the Division prior to receiving a Class M license. The bill clarifies the driving examination required for licensure shall be administered by the Division, the U.S. Department of Defense, or as part of a curriculum recognized by the MSF.

#### ***Vision Tests for Online Driver's License Renewal***

The bill specifies vision test requirements for qualifying applicants for electronic online driver's license renewal. A requirement in continuing law that a driver's license examiner administer an eyesight exam prior to renewal of a driver's license will be waived under the conditions listed below:

- The electronic online renewal applicant must be at least 21 years old but less than 50 years old;
- The applicant must certify under penalty of law the applicant's vision meets requirements in continuing law (20/40 or better in at least one eye as tested by the driver's license examiner, 20/60 or better in at least one eye if the applicant submits a vision report from an ophthalmologist or optometrist);
- The applicant must certify under penalty of law the applicant has undergone an examination by a licensed ophthalmologist or a licensed optometrist within the previous year;

- The applicant must authorize the exchange of vision and medical information between the Division and the applicant's ophthalmologist or optometrist; and
- The ophthalmologist or optometrist will have four business days to confirm or deny the vision and medical information of the applicant. The Division will be required to accept the vision and medical information provided for processing the renewal application if the Division does not receive a response from the applicant's ophthalmologist or optometrist within the specified time frame.

The bill states the provisions allowing waiver of vision examination expire July 1, 2022, and the bill requires the Division to report to the House and Senate Committees on Transportation by February 1, 2022, regarding the online renewal process and its effects to safety on the state's roads and highways.

The bill requires, rather than authorizes as in current law, the Secretary of Revenue to adopt and administer rules and regulations regarding electronic online renewal of a driver's license and specify those rules and regulations shall include, but not be limited to, requirements that an electronic online renewal applicant has previously provided documentation of identity, lawful presence, and residence to the Division for electronic scanning.

### ***Commercial Driver's License Renewal***

The bill extends from four years to five years the period of time an original commercial driver's license (CDL) issued on and after July 1, 2018, will be valid. The bill extends from four years to five years the period of time before expiration of a CDL. The bill also makes conforming amendments to law.
