

Administration

Consequences of Not Funding this Program

The Administration program provides for the overall management and operational control of the facility. This program includes the warden, human resources, mailroom, policy and compliance, staff development, and fiscal. Not funding this program would eliminate the leadership and support functions necessary to operate the facility.

Program History

In 1961 the Kansas Legislature authorized the Director of Penal Institutions to convert facilities of the Kansas Technical Institute into a State Reception and Diagnostic Center (SRDC). The primary function of the facility was to perform evaluations on convicted offenders sentenced to the Kansas State Penitentiary and the Kansas State Industrial Reformatory. Offender work crews from the Penitentiary performed the renovation and the first residents were received in early 1962. Legislation in 1971 established the Kansas Correctional-Vocational Training Center (KCVTC). The targeted population was non-violent, youthful, first-time male offenders. KCVTC was built next to the SRDC and began to receive residents on January 2, 1975. KCVTC began housing female residents alongside the male population in 1979 to relieve the overcrowding at the Kansas Correctional Institution for Women at Lansing and to provide non-traditional vocational training opportunities to the female population. Legislation in 1984 established the Topeka Pre-Release Center on the grounds of the Topeka State Hospital. The purpose of this program was to provide male and female residents with a smoother transition from prison to the community. The Pre-Release Center operated until 1988 when it transitioned to a work-oriented facility for minimum custody male residents, and later female residents, under the name Topeka Correctional Facility. A work release program was then added at the Forbes Industrial Area, where it operated as the Forbes Correctional Facility. Consolidation of the four separate operations in Topeka began with the passage of Senate Bill 748 in 1990. Initially, SRDC and KCVTC became the Topeka Correctional Facility-East and the Topeka Correctional Facility and Forbes Correctional Facility became known as the Topeka Correctional Facility-West. In 1991 these two operations were further consolidated under a single administration designated as the Topeka Correctional Facility. In 1994 the work release unit at Forbes closed. In 1995, construction of I-Cell House was completed and the maximum-security female population at Lansing was relocated to Topeka. In 2001, the last of the male population departed TCF when the reception and diagnostic unit was relocated to El Dorado. In 2002 the unit on the former State Hospital grounds was close and the staff reassigned to the newly remodeled J-Cellhouse, bringing all TCF operations within the complex that exists today.

Classification & Programs

Consequences of Not Funding this Program

This program includes Classification and Records and various support functions. Classification and Records are responsible for the reporting and recording of all pertinent information regarding the movement and progress of residents at the facility, to included establishment of legal authority to incarcerate, movement, behavior, progress, disciplinary history, and program participation. Under the coordination of the unit teams, an individualized treatment program is developed, implemented, and maintained for each resident. Each resident, as well as facility staff, is kept aware of the resident's status within the correctional process. This program provides direct case management to the inmates, holding them accountable for their behavior, while identifying and localizing problems within each unit. Also include in this program are chaplain services, library services, and recreation. Not funding this program would eliminate the processes and activities that are critical to appropriate placement, documentation, and treatment plan development and implementation.

Capital Improvements

Consequences of Not Funding this Program

The capital improvement program is used solely for budgeting and recording expenditures related to rehabilitation and repair projects. KDOC central office is appropriated \$4,920,000 from the Correctional Institutions Building Fund annually for rehabilitation and repair projects throughout the KDOC system. Funds are transferred to the facility as projects are approved. Eliminating this program would prohibit the Department from making repairs, upgrades, and improvements to the facilities.
