**I. Brief description of the proposed rule(s) and regulation(s).**

The proposed regulation creates a backcountry access pass for Little Jerusalem state park at a fee of \$50. The purpose of the permit is to control access to sensitive and fragile portions of the new state park.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. (If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)**

Contiguous states have state parks with both an entrance fee or are free to enter. The federal government manages parks that require a fee and do not require a fee to enter.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

The proposed regulation should enhance business activity by encouraging additional use of the state parks.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

The regulation should have no implementation or compliance costs on specific businesses, sectors, public utility ratepayers and local governments. Individuals desiring to use the designated portions of the state park would be required to have a backcountry access pass.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

None.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

There are no implementation costs except user fees for those desiring to enter the designated portions of the state park.

**E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;**

There is no cost and impact from the regulation on business and economic development within the State of Kansas or local government. Individuals would be required to pay if they desired to use the designated portions of the state park.

**Give a detailed statement of the data and methodology used in estimating the above cost estimate.**

The agency anticipates issuing no more than 40 backcountry passes per day. Assuming every pass was sold for 365 days per year, that would generate approximately \$730,000 per year, all of which would accrue to the park fee fund.

**Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? **I. Brief description of the proposed rule(s) and regulation(s).**

This proposed amendments to the regulation would prohibit bow and arrow fishing for certain sport fish on streams and rivers, in an attempt to curtail unlawful activity. Bow and arrow fishing for those species will still be allowed to be conducted in other water bodies where authorized.
