

## State of Kansas

## Kansas Board of Regents

## Notice of Hearing on Proposed Amendment and Adoption of Administrative Regulations

The Kansas Board of Regents will conduct a public hearing to consider amendments of K.A.R. 88-28-1, 88-28-2, 88-28-3, 88-28-4, and 88-28-8 and proposed new regulations K.A.R. 88-28-9 and 88-28-10. The hearing will be held at 10:00 a.m. on December 27, 2022, in the Kansas Board of Regents Board Room, 1000 SW Jackson St., Suite 520, Topeka, KS 66612.

This 60-day notice of the public hearing shall constitute a public comment period for receiving written public comments on the proposed amendments and new regulations. All interested parties may submit comments prior to the hearing to Renee Burlingham at the Kansas Board of Regents' above address, at (785) 430-4239 or via email to [rburlingham@ksbor.org](mailto:rburlingham@ksbor.org). All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations during the hearing. To provide all parties with an opportunity to present their views, it may be necessary to request each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Renee Burlingham through the contact information listed above. Individuals with hearing and/or speech disabilities may contact the Kansas Relay Center at 800-766-3777 for communication accommodations.

Copies of the proposed regulations and the economic impact statement may be found at <http://www.kansasregents.org/about/rules-regulations> or by contacting Renee Burlingham.

A summary of the proposed regulations and the economic impact statement of the regulations follows:

The 2021 Legislature amended K.S.A. 74-32, 163 et seq. and these amendments took effect on July 1, 2021. In addition to aligning the regulations with the updated statute, the overall purpose for the regulation amendments and new regulations is to increase consumer protection and institutional accountability while eliminating some outdated requirements. The proposed amendments provide clarification and update minimum requirements, including the following:

- clarify the official termination date used for refund calculations, allowing institutions to consider the week during which the student last attended to be an entire week of attendance completed;
- add to catalog requirements, most notably requiring the institution's attendance policy and grievance policy with Board contact information;
- modify the advertising requirements to allow institutions that quote salaries of program graduates to use more readily available sources such as a governmental agency or nationally recognized source;
- change the minimum financial requirements that institutions must meet to maintain a certificate of approval from the Board. Based on recommendations from a certified public accountant, the proposed modifications will require an institution to demonstrate a profit earned and either a current liquidity ratio of at least 1 or a positive net worth in order to obtain a certificate of approval without conditions related to financial monitoring; and

- expand procedures for institutions that are closing to require specific documentation and transfer of records.

Additionally, the agency is proposing changes to remove some reporting requirements to reduce the burden on regulated institutions, including the following:

- reduce the requirements related to the annual fire inspection. Many cities do not conduct annual inspections, making it difficult for institutions to provide an annual report to the Board as required under the current regulation. To reduce the reporting burden, the proposed amendments require institutions to receive inspections as required by the local fire department, state fire marshal, and other public health and safety organizations. The proposed amendments will require these reports to be made available to the Board upon request;
- remove restrictions related to student loans that the institution receives on behalf of the student from private lenders; and
- modify the requirements related to the institution's library to no longer require that the institution employ a professional librarian or include an annual budget line item for library maintenance and improvement.

The proposed amendments also create new regulations to establish requirements related to the required documentation for provisional certificates of approval for institutions in the process of obtaining accreditation and changes of ownership.

There is no anticipated economic impact expected to be incurred or passed along to regulated institutions as a result of enacting the proposed amendments. The proposed amendments are intended to update and clarify the regulatory language. The specific regulation regarding fees charged to regulated institutions is not impacted by the proposed amendments.

Submit a hard copy of the proposed rule(s) and regulation(s) and any external documents that the proposed rule(s) and regulation(s) would adopt, along with the following to:

Division of the Budget  
900 SW Jackson, Room 504-N  
Topeka, KS 66612

**I. Brief description of the proposed rule(s) and regulation(s).**

Under the Private and Out-of-State Postsecondary Educational Institution Act (Act), the Kansas Board of Regents (Board) regulates certain private and out-of-state educational institutions that operate in Kansas.

The 2021 Legislature amended the Act and these amendments took effect on July 1, 2021. In addition to aligning the new statute with regulations, the proposed regulation amendments are intended to increase consumer protection and institutional accountability while eliminating some outdated requirements. The proposed amendments provide clarification and update minimum requirements, including the following:

- clarify the official termination date used for refund calculations, allowing institutions to consider the week during which the student last attended to be an entire week of attendance completed;
- add to catalog requirements, most notably requiring the institution's attendance policy and grievance policy with Board contact information;
- modify the advertising requirements to allow institutions that quote salaries of program graduates to use more readily available sources such as a governmental agency or nationally recognized source;
- change the minimum financial requirements that institutions must meet to maintain a certificate of approval from the Board. Based on recommendations from a certified public accountant, the proposed modifications will require an institution to demonstrate a profit earned and either a current liquidity ratio of at least 1 or a positive net worth in order to obtain a certificate of approval without conditions related to financial monitoring; and
- expand procedures for institutions that are closing to require specific documentation and transfer of records.

Additionally, the agency is proposing changes to remove some reporting requirements to reduce the burden on regulated institutions, including the following:

- Reduce the requirements related to the annual fire inspection. Many cities do not conduct annual inspections, making it difficult for institutions to provide an annual report to the Board as required under the current regulation. To reduce the reporting burden, the proposed amendments require institutions to receive inspections as required by the local fire department, state fire marshal, and

other public health and safety organizations. The proposed amendments will require these reports to be made available to the Board upon request;

- Remove restrictions related to student loans that the institution receives on behalf of the student from private lenders; and
- Modify the requirements related to the institution's library to no longer require that the institution employ a professional librarian or include an annual budget line item for library maintenance and improvement.

The newly amended statutes created a provisional certificate of approval for institutions in the process of obtaining accreditation. To implement the new law, a new regulation is proposed to establish requirements for provisional certificates of approval. These requirements include documentation of adequate funding to support operations during and beyond the accreditation process and a detailed plan for achieving accreditation.

The proposed amendments also create new regulations related to changes of ownership and the required documentation to be submitted to the Board.

**II. Statement by the agency if the rule(s) and regulation(s) is mandated by the federal government and a statement if approach chosen to address the policy issue is different from that utilized by agencies of contiguous states or the federal government. (If the approach is different, then include a statement of why the Kansas rule and regulation proposed is different)**

These regulations and proposed amendments are not mandated by the federal government.

**III. Agency analysis specifically addressing following:**

**A. The extent to which the rule(s) and regulation(s) will enhance or restrict business activities and growth;**

Most of the proposed amendments are intended to update and clarify the regulatory language.

The proposed amendments modify the minimum financial requirements that institutions must meet to maintain a certificate of approval. Institutions with inadequate financial stability may not meet these minimum requirements to obtain a certificate of approval or may be issued a certificate of approval with conditions or monitoring.

Some of the proposed amendments remove certain reporting requirements which will reduce the burden on regulated institutions.

**B. The economic effect, including a detailed quantification of implementation and compliance costs, on the specific businesses, sectors, public utility ratepayers, individuals, and local governments that would be affected by the proposed rule and regulation and on the state economy as a whole;**

Regulated institutions may see reduced costs with the proposed modifications to the requirements related to the institution's library. Institutions will no longer be required to employ a professional librarian or include an annual budget line item for library maintenance and improvement.

The modification to require institutions to receive inspections as required by the local fire department, state fire marshal, and other public health and safety organizations, rather than annually may reduce costs to institutions in cities that charge for inspections.

The proposed regulation amendments modify the minimum financial requirements. Institutions that do not meet the minimum requirements may be placed on financial monitoring or conditions may be imposed such as additional bonding. The cost to the institution to obtain additional bonding will be dependent on the amount of the bond, the bond company selected by the institution, and the institution's credit history.

Institutions that are in the process of obtaining accreditation are provided provisional approval and must demonstrate the existence of reserve funds in an amount equal to the tuition multiplied by the number of students in the first class multiplied by the length of the program. The funds shall remain in escrow until the first cohort graduates. These funds shall provide financial support for the cost of a teach-out and indemnification of any students for losses suffered if the institution fails to achieve full accreditation.

**C. Businesses that would be directly affected by the proposed rule and regulation;**

Postsecondary educational institutions regulated under the Private and Out-of-State Postsecondary Educational Institution Act.

**D. Benefits of the proposed rule(s) and regulation(s) compared to the costs;**

There are no direct costs associated with the proposed amendments. The benefits of the proposed regulation amendments are increased consumer protection for students attending regulated institutions.

**E. Measures taken by the agency to minimize the cost and impact of the proposed rule(s) and regulation(s) on business and economic development within the State of Kansas, local government, and individuals;**

The proposed amendments do not impact the specific regulation regarding fees charged to regulated institutions, therefore, there are no direct costs associated with the changes.

**F. An estimate, expressed as a total dollar figure, of the total annual implementation and compliance costs that are reasonably expected to be incurred by or passed along to business, local governments, or members of the public.**

\$0 – No annual implementation or compliance costs are expected to be incurred or passed along to regulated institutions as a result of enacting the proposed amendments.

**Do the above total implementation and compliance costs exceed \$3.0 million over any two-year period?**

YES ☐ NO ☒

**Give a detailed statement of the data and methodology used in estimating the above cost estimate.**

N/A

Prior to the submission or resubmission of the proposed rule(s) and regulation(s), did the agency hold a public hearing if the total implementation and compliance costs exceed \$3.0 million over any two-year period to find that the estimated costs have been accurately determined and are necessary for achieving legislative intent? If applicable, document when the public hearing was held, those in attendance, and any pertinent information from the hearing.

YES ☐ NO ☒

- G. If the proposed rule(s) and regulation(s) increases or decreases revenues of cities, counties or school districts, or imposes functions or responsibilities on cities, counties or school districts that will increase expenditures or fiscal liability, describe how the state agency consulted with the League of Kansas Municipalities, Kansas Association of Counties, and/or the Kansas Association of School Boards.

N/A

- H. Describe how the agency consulted and solicited information from businesses, associations, local governments, state agencies, or institutions and members of the public that may be affected by the proposed rule(s) and regulation(s).

Regulated institutions were notified of the proposed amendments via email and were provided the opportunity to submit questions and comments to Board staff. Comments received from regulated institutions supported the proposed amendments.

- I. For environmental rule(s) and regulation(s) describe the costs that would likely accrue if the proposed rule(s) and regulation(s) are not adopted, as well as the persons would bear the costs and would be affected by the failure to adopt the rule(s) and regulation(s).
