I. The 2002 Legislature eliminated the FY 2003 Sales Tax demand transfer, the 2003 Legislature eliminated the FY 2004 Sales Tax demand transfer, and the 2004 Legislature eliminated Sales Tax demand transfers for the remainder of the CTP.

II. Prior to FY 2007 the Sales and Compensating Use Tax was 0.25 percent, in 2007 it was increased to 0.38 percent, and then increased again in FY 2008 to 0.65 percent. Later, the 2013 Legislature reduced the overall sales tax to 6.15 percent, effective July 1, 2013. This change in sales tax led to a recalculation of the amount that the State Highway Fund receives, in order to keep them whole (at which point the State Highway Fund was receiving 17.073 percent of the sales and compensating use tax). With the passage of 2015 House Sub. for Senate Bill 270 the sales and compensating use tax, as of July 1, 2015, was increased from 6.15 percent to 6.50 percent. The State Highway Fund is set to receive a direct deposit of 16.226 percent of this tax in FY 2016, and 16.154 for FY 2017. The November Consensus Revenue Estimates for the State Highway Fund, estimated that KDOT will receive sales tax in the amount of \$504.9 million in FY 2017, \$509.7 million for FY 2018, and \$514.5 million for FY 2019.

III. A total of \$125.2 million was "borrowed" from the State Highway Fund with arrangement to pay back from FY 2007 to FY 2010 (includes the 2002 Legislature transfer equal to the FY 2002 sales tax transfer, the 2003 Legislatures transfer to finance a portion of the Department of Revenue's Division of Vehicles, and the 2004 Legislature transfer to finance Highway Patrol State General Fund operations). The first two repayments were made in FY 2007 and FY 2008. As part of the 2009 Session, the FY 2009 payment of \$30.9 million was delayed until FY 2011, and the FY 2010 payment of \$30.9 million was eliminated. The Governor's FY 2011 recommendation called for the elimination of the FY 2009 payment that was delayed to FY 2011.

IV. The 2004 Legislature authorized the issuance of \$210.0 million in State General Fund backed bonds, which appear in the Department of Administration's (DOA) budget. The 2009 Legislature transferred \$25.3 million, all from the State Highway Fund, to the State General Fund to reimburse the State General Fund for FY 2009 and FY 2010 Comprehensive Transportation Program (CTP) bond payments (Interest and Principal in FY 2009, and Interest in FY 2010 as the Principal portion was part of the bond restructuring). The Governor's FY 2011 recommendation included the continued transfer of \$25.0 million to reimburse the State General Fund for bond payments.

V. Transfers from the State Highway Fund include: (1) Affordable Airfare Fund: 2006 House Sub. for SB 475 created the State Affordable Airfare Fund in the Department of Commerce, funded through a transfer of \$5.0 million from the State Highway Fund annually from FY 2007 to FY 2011. In FY 2012 and FY 2013, this transfer was made from the Economic Development Initiatives Fund (EDIF), but then continued as a transfer from the State Highway Fund in FY 2014, FY 2015, and FY 2016. The program is scheduled for elimination for FY 2017. (2) The State Highway Fund transfer to the State General Fund to finance Highway Patrol operations. (3) A direct transfer from the State Highway Fund to the Highway Patrol to finance operations.

VI. The Governor's recommended and approved expenditure reductions and transfers to the State General Fund from the State Highway Fund include:

{FY 2010} (1) \$80.0 million captured through reductions and existing State Highway Fund balance (recommended to the Legislature as part of the 2009 July and November allotments); (2) \$25.3 million to reimburse the State General Fund for debt service principal and interest payments on CTP bonds (as part of 2009 Senate Substitute for House Bill 2373); (3) \$28.0 million captured through additional project preservation letting reductions (totaling \$86.5 million) (recommended as part of the Governor's "Budget Balancing Plan" announced March 5, 2010); (4) \$10.0 million transferred as part of \$11.0 million in federal funding anticipated to be received by the State as part of the passage of a primary seatbelt law (2010 HB 2130).

{FY 2011} (1) \$80.0 million captured through recommended reductions and existing State Highway Fund balance; (2) \$25.0 million to reimburse the State General Fund for debt service principal and interest payments on CTP bonds. (3) \$44.3 million recommended to be transferred, and would capture FY 2011 savings for \$86.5 million in preservation projects that were not let as part of the Governor's Budget Amendment No. 1, Item 5 for FY 2010.

{FY 2012} (1) The Governor's FY 2012 recommendation included the transfer of \$200.0 million from the State Highway Fund to the State General Fund. In order to capture the necessary savings for the FY 2012 transfer, preservation projects were reduced by \$22.0 million in both FY 2011 and FY 2012. The agency provided information stating that this transfer was possible due in part to lower than expected bid prices and low inflation, however, the agency has advanced its bonding schedule and will issue \$50.0 million in bonds for FY 2012. Prior to the transfer, no bonds were scheduled to be issued for FY 2012; (2) The final 2011 Appropriations Bill (Senate Sub for HB 2014) increased the total transfer by \$5.0 million to \$205.0 million from the State Highway Fund to the State General Fund. The additional \$5.0 million was to capture administrative savings experienced by the agency in FY 2011.

{FY 2014} (1) \$15.0 million transferred to the State General Fund as part of 2013 SB 171 (KTA/KDOT formalized partnership savings).

{FY 2015} (1) \$15.0 million transferred to the State General Fund as part of 2013 SB 171 (KTA/KDOT formalized partnership savings); (2) \$158.5 million transferred to the State General Fund as part of 2015 House Sub. for SB 4 (\$150.7 million transfer, \$7.8 million operations reduction).

{FY 2016} (1) \$129.3 million transferred to the State General Fund as part of 2015 House Sub. for SB 112 (\$116.0 million transfer, \$13.3 million operations reduction); (2) \$8.0 million transferred to the State General Fund noted as operational efficiencies savings included in the July 30th, 2015, "FY 2016 SGF Expenditure Reduction and Fund Transfer Plan;" (3) \$47.9 million was transferred from the State Highway Fund to the State General Fund in November 2015. NOTE: (FY 2016) transfers labeled "(2)"&"(3)" were made as part of special allotment authority granted in 2015 Senate Sub. for HB 2135. (4) 2016 House Sub. for SB 161 transferred an additional \$2.1 million from the State Highway Fund to the State General Fund in FY 2016. (5) \$70.0 million transferred from the State Highway Fund to the State General Fund, as part of the Governor's March 18th allotment utilizing Special Allotment Authority prescribed in House Sub. for SB 161(Savings generated as part of the suspension and delay of \$294.5 million of FY 2017 projects).

{FY 2017} (1) \$130.8 million transferred to the State General Fund as part of 2015 House Sub. for SB 112 (\$117.0 million transfer, \$13.8 million operations reduction); (2) an additional \$25.0 million transferred from the State Highway Fund to the State General Fund as part of 2016 House Sub. for SB 161. (This additional amount is part of two items of projected savings from A&M efficiency study recommendations which include: 1) \$10.0 million in projected savings generated from various efficiency study recommendations; and 2) \$15.0 million from the leasing of excess bandwidth on KDOT's communications system); (3) \$115.0 million transferred from the State Highway Fund to the State General Fund, as part of the Governor's March 18th allotment utilizing Special Allotment Authority prescribed in 2016 House Sub. for SB 161 (Savings generated as part of the suspension and delay of \$294.5 million in FY 2017 projects); and (4) \$5.0 million transferred specifically to the School District Extraordinary Need Fund of the Department of Education as part of Special Session action taken in 2016 Substitute for HB No. 2001 (The State Highway Fund will still receive approximately \$4.2 million from the vehicle modernization surcharge for FY 2017). (5) The Governor's recommendation to the 2017 Legislature reduces the amount to be transferred in FY 2017 (2016 Legislature approved at \$275.8 million) by \$15.4 million, to account for reduced revenues estimated in FY 2017 [as per Fall 2016 Consensus Revenue Estimates]. (6) GBA No. 1 [April 2017] increased the FY 2017 transfer by \$6.2 million, to capture additional sales tax revenues estimated [as per Spring 2017 Consensus Revenue Estimates].

{FY 2018} (1) \$288.3 million recommended to be transferred to the State General Fund, to capture remaining sales tax revenue estimated to be credited to the State Highway Fund for FY 2018. (2) GBA No. 1 [April 2017] increased the FY 2018 transfer by \$4.9 million, to capture additional sales tax revenues estimated [as per Spring 2017 Consensus Revenue Estimates].

{FY 2019} (1) \$293.1 million recommended to be transferred to the State General Fund, to capture remaining sales tax revenue estimated to be credited to the State Highway Fund for FY 2019. (2) GBA No. 1 [April 2017] increased the FY 2019 transfer by \$5.0 million, to capture additional sales tax revenues estimated [as per Spring 2017 Consensus Revenue Estimates].

VII. Statehouse Debt Service - This column begins in FY 2015, and reflects only certain special transfers made from the State Highway Fund, which includes:

{FY 2015} through {FY 2017} - Transfers for Department of Administration - Statehouse Debt Service (\$20.0 million).

{FY 2018} - Transfers for Department of Administration - Statehouse Debt Service (\$18.3 million).

{FY 2019} - Transfers for Department of Administration - Statehouse Debt Service (\$18.3 million).

VIII. Other Education Transfers - This column is not all inclusive. It begins in FY 2014, and reflects only certain special transfers made from the State Highway Fund, which includes:

{FY 2014} - Transfers for Education that include: Technical Education Transportation (\$650,000); Transportation Weighting (\$96.6 million); and Transportation of Special Ed Students (\$43.0 million).

{FY 2015} through Governor Recommended {FY 2019} - Transfers for Education that include: Technical Education Transportation (\$650,000); Transportation Weighting (\$96.6 million); and Transportation of Special Ed Students (\$10.0 million).

IX. Other Health Transfers - This column begins in FY 2015, and reflects only certain special transfers made from the State Highway Fund, which includes:

{FY 2015} through Governor Recommended {FY 2019} - Transfers for Aging and Disability Services - Mental Health Grants (\$9.7 million).
